ABOUT US

At O'Neill Fire and Supply, our commitment to safety is not just a business philosophy but a way of life. As a firefighter-owned and operated company nestled in the heart of the Bakken, we understand the critical importance of equipping our first responders with the highest quality gear and supplies.

Founded by member, Chase O'Neill, of the firefighting community, O'Neill Fire and Supply takes pride in being more than just a supplier; we are a dedicated partner in ensuring the safety and effectiveness of our local heroes. Our mission is clear: to provide top-notch gear and supplies for firefighters, police forces, and EMTs operating in the Bakken

At O'Neill Fire and Supply, our commitment to excellence is rooted in our firsthand experience as first responders. We know the demands of the job and understand that reliable, high-quality equipment can make all the difference in critical situations. That's why we curate a comprehensive selection of gear, ensuring that our fellow first responders are equipped with the best tools for the job.

Chase O'Neill
President

Biography

Chase started his career in 2018 working as a rescue technician. After bouncing around the safety and sales world, he became a volunteer firefighter for the City of Williston in 2021, and also became a Regional Sales Manager for Blackline Safety from 2021-2024. From 2018-Present, he has become a Program Advisor for Customer Experience at the University of North Dakota, an instructor for PEC, CPR/First Aid, and a fire instructor for the state of North Dakota. He also assists numerous Fire/EMS agencies with budgeting and implementing training programs across the country.

GLOVES

FireArmor SR-X

SKU # 8180

EXT Rescue 4014

SKU # 4014

EXT Rescue 4012

SKU # 4012

Built to battle high heat and intense situations, FireArmor® SR-X® structural firefighting gloves feature 360-degree heat and water resistance and premium cow suede for unsurpassed safety, comfort, and dexterity.

- **FireFighting**

Never give up with the EXT Rescue® 4014, the rescue glove that meets OSHA blood-borne pathogen requirements, keeping your hands safe and dry.

- **Extrication**
- **Technical Rescue**

Take on any task with tenacity with the EXT Rescue® 4012. Armed with our incredible impact, cut, and puncture protection for the toughest first responders.

- **Extrication**
- **Technical Rescue**

EXT Rescue 4013

SKU # 4013

EXT Rescue 4011

SKU # 4011

Chrome Series 4081

SKU # 4081

No job is too big, and no call is too small for the most versatile rescue glove, the EXT Rescue® 4013. Armed with our incredible impact, cut, puncture protection and anti-debris cuff assists with quick on-and-off between tasks

- **Extrication**
- **Technical Rescue**

Armed with our incredible impact, cut, and puncture protection, you can put your trust in the EXT Rescue® 4011 - the perfect safety glove for the toughest first responders. Back-of-hand Impact Exoskeleton with high-performance IR-X® provides continuous coverage against smash and pinch hazards on the knuckles and fingers

- **Extrication**
- **Technical Rescue**

A traditional leather driver in fit and feel, the Chrome Series® 4081 features a SuperFabric® brand material interior liner, a SlipFit® cuff, and a goatskin leather palm for increased comfort, dexterity, and grip.

- **Wildland**
- **Technical Rescue**

Chrome Series 4080

SKU # 4080

Ugly Mudder 7212

SKU # 7212

HexChem 7071

SKU # 7071

Combining old-school comfort with modern protection, the Chrome Series® 4080 features SuperFabric® brand material, impact protection, and a goatskin leather palm.

- **Technical Rescue**
- **Wildland**

The hi-vis Ugly Mudder® 7212 gloves feature a liquid-resistant coating, back-of-hand impact protection, excellent abrasion resistance, and a confident grip.

- **Hazmat**

Gauntleted chemical- and fluid-resistant gloves with impact, 360° cut, and a nitrile palm coating keeps hands dry and protected while handling chemicals and other liquids.

Endura 378A

SKU # 378A

Endura 378A gloves provide durable protection from scuffs and scrapes, making them ideal light construction tasks, and low hazard site clean up. The keystone thumb design maximizes durability for a longer wear life while the elasticized wrists offer a snug fit for all day comfort.

- **Technical Rescue**
- **Wildland**

Chemstop F294SL

SKU # F294SL

These PVC gloves that run to the shoulder are your first line of defense. Aside from chemicals, they'll also defend from oils, grease, acid, caustics, solvents, detergents, oxidation and water.

- **Hazmat**

Chemstop L6043

SKU # L6043

With a total length of 24 inches, these extra-heavyweight natural rubber gloves provide a high degree of protection from chemicals and caustic substances. Their 7.5" cuffs allow for easy on and off and they're an excellent choice for sandblasting.

- **Hazmat**

Endura 378GOBTX

SKU # 378GOBTX

Endura 378GOBTX goatskin driver gloves are treated with Oilbloc™ to resist oil and water, and ANSI Cut Level Ag TenActiv liner. The goatskin leather provides more dexterity and durability. Ideal for working in high cut hazard conditions where oil and water resistance is needed.

- **Wildland**
- **Technical Rescue**

Chemstop L868FXVB

SKU # L868FXVB

Chemstop™ L868FXVB gloves protect hands from both wet and dry chemicals, and fine dust particles. The tough, protective latex coating is crinkled to offer secure grip while back-of-hand bumpers protect against knocks and bumps. The gloves also feature 360° cut protection with high cut resistance and are highly tactile to perform precision work.

The ESS Influx FirePro-1977 FS™ wildland goggle features the patented Adjustable Ventilation System™ AVS, for either a dust-free, fully-sealed mode, or a fog-free, open-ventilation mode. even with gloves on. All goggle components are heat and flame resistant, including the durable OpFoam™ face padding.

COMES IN

-Clear

Our proprietary coatings are chemically formulated to perform differently than any other coating on the market, so using a standard alcohol-based cleaner can cause damage. For this reason, we've created specific cleaning supplies to ensure our TruShield® coatings continuously perform to the highest standard.

Safecomm Uncorded Earplugs

SKU # 18-13001

Safecomm Corded Earplugs

SKU # 18-13002

K2 Earmuffs

SKU # 19-10002

Revolutionary design + safe communication. safeComm® disposable earplugs are engineered with an innovative channel for exceptional fit and audible speech perception, blocking the bad and letting in the good.

Revolutionary design + safe communication. safeComm® disposable earplugs with cord are engineered with an innovative channel for exceptional fit and audible speech perception, blocking the bad and letting in the good.

Ergonomic design meets style and convenience. K-Series® earmuffs by HexArmor® are engineered for the modern workplace, delivering premium all-day comfort. NRR: 26dB, CSA Class A(L)

K3 Earmuffs

SKU # 19-10003

3M PELTOR LiteCom Pro III

SKU # 3MRMT73H7A4D10-NA

Turn2® refillable earplug dispenser

SKU # 20-10002

Ergonomic design meets style and convenience. K-Series® earmuffs by HexArmor® are engineered for the modern workplace, delivering premium all-day comfort. NRR: 30dB, CSA Class A(L)

3M™ PELTOR™ WS™ LiteCom Pro III Headset is a Headband hearing protector with built-in analog and digital programmable two-way communication radio, level-dependent hearing protection, Bluetooth® functionality and a jack to connect to external devices. The analog and digital two-way radio enables clear, hands-free communication in high levels of noise and integrates seamlessly into your existing two-way radio system. With Bluetooth® multipoint functionality, workers can be wirelessly connected to two mobile devices..

Introducing the Turn2® refillable earplug dispenser by HexArmor, designed to make hearing compliance fast and easy on your worksite. This robust, wall-mounted dispenser requires minimal installation and can be set up in any area of your site, as needed, for quicker worker access.

Dräger X-plore 1750 N95

SKU # 1750-N95

Coarse and fine particles are effectively stopped in the various filter layers.

At the same time, breathing resistance remains very low, allowing the user to work comfortably for longer periods.

Dräger X-plore 1950 N95 V

SKU # 1950V-N95

Dräger X-plore 1900 series features the SmartFOLD design with patented double reinforcement. This makes the mask shape highly stable and provides a generous breathing space. Additionally, exhaled air is directed downwards, reducing the perceived temperature inside the mask.

Dräger X-plore 1300 NIOSH

SKU # 1300-Niosh

The improved X-plore® 1300 NIOSH particulate respirators offer users the ideal combination of safety and comfort. Improvements were made on the basis of several years of intensive market experience by analyzing customer requirements and market demands.

Dräger X-plore 3300

SKU # X-plore 3300

Ergonomic design meets style and convenience. K-Series® earmuffs by HexArmor® are engineered for the modern workplace, delivering premium all-day comfort. NRR: 30dB, CSA Class A(L)

Dräger X-plore 5500

SKU # X-plore 5500

Whether in the chemical, metal, or automotive industries, ship building, maintenance, supplies, or disposal: The Dräger X-plore® 5500 full face mask is the right solution for environments where not only increased respiratory protection is required, but a clear vision is mandatory.

Dräger CDR 4500

SKU # CDR-4500

The Dräger CDR 4500 full face mask, combined with our CBRN Cap 1 canister, provides a CBRN approved combination specially developed for use in civil defense and civil protection.

3M™ 6000 Half Face Series

SKU # 3MR6300

3M™ Half Facepiece Reusable Respirator offers protection against a variety of gases, vapors and particulate hazards. Gray respirator provides compatible and convenient respiratory protection when combined with 3M™ particulate filters/cartridges/dual airline system. Ideal for use in general applications such as assembly, cleaning, demolition, facility maintenance, grinding, machine operations, painting, sanding and welding.

3M™ FF-403 Series

SKU # 3MRFF-403

3M™ Ultimate FF FX-403 Full Facepiece comes with Scotchgard™ coating that causes some paints and stains to bead up on the surface so they can be wiped off easily and 3M™ Cool Flow™ valve for easier breathing and cool, dry comfort. It includes large lens for excellent peripheral vision, six strap configurations for a secure fit, low profile bayonet cartridge attachments that is designed for improved balance and better weight distribution

3M™ 6000 Full Face Series

SKU # 19-10002

3M™ 6000 Series Full Face Thermoplastic Elastomer Facepiece featuring single DIN thread port is featured with a wide field of vision which helps wearers to feel safe. Facepiece with lightweight, balanced design is rendered with a silicone face seal for added comfort and durability.

3M™ N95 W/ Exhalation Valve

SKU # 3MR8511

3M™ Economical N95 disposable particulate welding respirator helps provide respiratory protection for applications where metal fumes may be present. It features 3M™ Cool Flow™ Valve, braided headband and adjustable M-nose clip helps provide a custom and secure seal.

3M™ N95 Disposable

SKU # 3MR8210

3M™ N95 Particulate Disposable Respirator is NIOSH approved N95 for providing at least 95% filtration efficiency against solid and liquid aerosols that do not contain oil. It features lightweight construction, adjustable nose clip for a custom fit and secure seal. It meets NIOSH 42 CFR 84 requirements and reduces the potential for eyewear fogging. It is applicable in bagging, grinding, sanding, sawing, sweeping, woodworking, foundries and other dusty applications. Do not use for gases and vapors, including those present in paint spraying operations, oil aerosols, asbestos or sandblasting.

Honeywell N95 w/ Exhalation Valve

SKU # HON14110394

North® by Honeywell N95 SAF-FIT® Plus N1125 Disposable Particulate Respirator comes with blue nose bridge and features a boomerang nose seal exhalation valve for ease of breathing and exceptional comfort during extended wear. Respirator is latex-free and is ideal for welding, soldering, brazing, torch cutting, metal pouring, grinding, sanding, sweeping and other dusty hot applications.

FIRST DUE STRUCTURAL

SKU # FD-S

Phenix First Due structural fire helmet provides all the protection you want and need while keeping your long-term health in mind. The safest firefighting helmet is the one you keep on your head. Since it is the lightest structural NFPA 1971 compliant helmet, boasting a low center of gravity and central balance, it is less likely to create the neck and upper back fatigue so many are used to during long incidents. Compliant to current OSHA and NFPA 1971 standards.

FIRST DUE EMS

SKU # FD-E

The Phenix First Due EMS model is designed for first responders engaged in rescue, paramedic, and medical response, and combines the safety of an NFPA helmet with the low profile of a USAR helmet to create the perfect helmet for EMS personnel attending to high-risk environments. While primarily designed for rescue applications it is a dual-purpose helmet that meets current OSHA and NFPA 1971 standards.

FIRST DUE SAR

SKU # FD-SAR

Designed around our legendary First Due, the Phenix First Due Technical Rescue/Search and Rescue (SAR) helmet's lightweight and reduced rear brim allows for a low profile, and small footprint provides increased comfort without compromising safety. While primarily designed for rescue applications it is a dual-purpose helmet that meets current NFPA standards 1971 when ordered with the proper components. Available with full or reduced rear brim.

SAM BROWN SHIELDS

SKU # SB-NA

Sam Brown helmet fronts are made with 3 layers of top-grain, cowhide leather. We do this to provide a sturdy product. A brass bar is added on all East Coast-style shields for Tradition. We strive to be the best in our industry by delivering a quality product with faster turn around times.

Styles

- Metro
- Wide
- TL2
- Traditional
- Spartan

TC-1 COMPOSITE

SKU # TC-1

Phenix Technology Inc.'s Traditional Composite helmet boasts a low center of gravity and is center balanced, thus, promoting a very low degree of neck fatigue. Our traditional composite models interface with any SCBA mask. We offer several options when building your custom TC-1. Compliant to current OSHA and NFPA 1971 standards.

TL-2 LEATHER

SKU # TL-2

The TL-2 Traditional Leather fire helmet is the lightest NFPA compliant authentic leather helmet on the market. Worn by firefighters worldwide, the TL-2 combines tradition and modern safety in a handcrafted masterpiece. Compliant to current OSHA and NFPA 1971 standards.

VIKING FIREFIGHTER HOOD

SKU # PS3838XXNFPA

VIKING's new triple-layered hood help protect your neck, ears and jaw area from dangerous particles. It is the latest breakthrough in barrier protection for firefighter hoods. The hood contains a paper-thin layer of Dupont™ Nomex® Nano Flex nestled between layers of knit which acts as a protective particle barrier without compromising comfort.

HALO 360 C6 PARTICULATE HOOD

SKU # HALO 360 C6

Protective hoods for structural fire fighting certified to NFPA 1971 (2018), including the Optional Limited Particulate Blocking: 23" length,

PAC II PBI GOLD/PBI

SKU # PACIIPBI

Protective Hood made up of PBI GOLD outer / PBI Inner. 21" length, shoulder bib, passes NFPA 1971-2018

GORE PARTICULATE HOOD GEN2

SKU # NB GORE GEN 2 PH

While exceeding the thermal protection requirements of the NFPA 1971, 2018 Edition, the GORE® Particulate Hood GEN2 also exceeds the Standard's particulate-blocking requirements with a protective barrier that blocks more than 99.99 percent of potentially harmful particulates*. This hood delivers reliable protection throughout the entire hood — even blocking smoke at critical seams more effectively than other particulate hoods currently available. At the same time, its construction is optimized to reduce interference with sounds and signals on the fireground

PAC IA 100% NOMEX

SKU # PACIANOMEX

100% Nomex firefighting hood that covers NFPA 1971-2018. Design is PAC IA, is 18" in length, notches around the shoulders

PAC IX Rayon Kevlar

SKU # RK PAC IX

Meets or exceeds Cal/OSHA Standards. NSN # 4210-01-614-8101 MILITARY SPEC'D HOOD. Made up of Rayon Kevlar and designed as PAC IX

Fire Eagle Air

SKU # FEA-NA

Fire Eagle Air keeps you protected from the heat and flames. With its slip- and puncture-resistant EH-rated sole, durable European bullhide leather and waterproof technology, it also offers extreme stability and protection in almost every situation.

Fire Hunter USA

SKU # FHUSA-NA

Fire Hunter USA keeps you protected from the heat and flames, offers the highest level of puncture resistance, protects your toes and protects you from dangerous fluids you can be exposed to on the job. Our durable European bullhide leather not only offers more protection, it offers more stability (no more boot flop over) and long term durability. Leather is easy to decon too.

Fire Eagle Xtreme

SKU # FEX-NA

From its xtreme slip resistant and puncture resistant sole to its durable bullhide leather to its debris reducing capabilities, Fire Eagle Xtreme has you covered no matter what your job demands.

Fire Hunter Xtreme

SKU # FHX-NA

Fire Hunter Xtreme keeps you protected from the heat and flames, offers the highest level of sole puncture resistance, protects your toes and protects you from dangerous fluids you can be exposed to on the job. Our durable European bullhide leather not only offers more protection, it offers more stability (no more boot flop over) and long term durability.

Fire Hunter Pro

SKU # FHP-NA

The Fire Hunter Pro guarantees top-notch protection against the various hazards you face on the job. It acts as your barrier against flames and shields you from potentially harmful fluids. With robust European bullhide leather, this boot will provide stability (no more boot flop over), prevent boot sagging, and ensure long-term durability.

Fire Hero Xtreme

SKU # FHEX-NA

The Fire Hero Xtreme keeps you protected from the heat and flames, offers the highest level of sole puncture resistance, protects your toes and protects you from dangerous fluids you can be exposed to on the job. Our durable European bullhide leather not only offers more protection, it offers more stability (no more boot flop over) and long term durability.

Fire Flash Xtreme

SKU # FFX-NA

Fire Eagle Air Grip Xtreme

SKU # FEAGX-NA

Airpower XR2

SKU # XR2-NA

Your safety is a top priority. Fire Flash Xtreme keeps you protected from the heat and flames, offers the highest level of puncture resistance, protects your toes and delicate metatarsal area as well as keeping you protected from dangerous fluids you can be exposed to on the job.

Fire Eagle Air Grip Xtreme is your personal coat of armor to keep your feet protected from heat and flames. The durable bull hide leather, steel puncture plate, composite toe, and EH rated sole keeps you safe and protected like no other.

HAIX's Airpower XR2 is a certified EMS boot ready for service. It is waterproof and puncture-resistant—offering all-around protection on the job.

HAIX Boot Care Kit

SKU # HAIXBCK

HAIX Boot Jack

SKU # HAIXBOOTJACK

HAIX Dry Wick Socks

SKU # HAIXSOCK

- A cleaning brush to remove heavy soiling without damaging the leather
- Both a black and clear HAIX silicone-based polish. HAIX polish moisturizes the leather and helps to diminish small scratches. Helps to waterproof the leather, but still keep it breathable. Silicone based polish is the best choice for keeping your boot leather in tip top shape without affecting its breathability. Haix polish has a handy built in sponge applicator to evenly apply polish to leather.
- A polishing cloth which can be used to either apply polish to those hard to reach places or used to buff boots to a shine. Machine washable.
- A buffing brush with soft bristles to bring back the shine of the leather.

With this wooden boot pull, you can easily remove your HAIX boots or shoes without having to bend down.

A good pair of high tech socks is the first line of defense for dry, comfortable and, most importantly, blister-free feet. High tech, breathable work socks can be a big improvement over cotton socks.

ATOM RESCUE HARNESS

SKU # 202125

CMC/ROCO WORK-RESCUE HARNESS

SKU # 202675

CMC FIRE RESCUE HARNESS

SKU # 202824

Delivers on performance without compromising comfort and safety.

The ATOM Rescue is certified to North American Standards. It is built with versatile, high strength components that withstand abuse while allowing efficient movement on the ground and on rope. Features include steel attachment points, 3 Quick-Connect Cobra Buckles, flexible gear loops, and shoulder pads. A chest ascender can be added using CMC's Chest Ascender Kit.

When time is of the essence, donning a harness shouldn't slow you down. Thanks to its innovative no-step design, the CMC/Roco Work-Rescue Harness™ is extraordinarily fast and easy to don. Contrasting color distinctions on interior and exterior padding expedite the process. The unique design provides wraparound comfort and breathability, cradling the wearer with an ergonomically formed Jack Back™ and waist and leg pads that feature contoured and molded ventilation channels. The coat-style of the harness entry prevents possible contamination of the waist belt and leg loops from footwear, since there is no need to step through or over the harness to don or doff.

The Fire-Rescue Harness™ remains one of the most versatile, multiple-use harnesses available. This popular harness features multiple D-ring attachment points and our JackBack™ removable padding with breathable D3 cloth, which keeps shoulder straps separated and makes donning and doffing a breeze. The dorsal D-ring allows adjustment for different size users, but stays in place when loaded, greatly increasing comfort. The front waist D-ring allows a comfortable, stable sitting position for rappels and the sternum D-ring works well for helicopter hoists. Gear loops offer easy access to equipment, and quick-connect shoulder straps and leg loops make donning the harness quick. Pads on the leg loops can be adjusted to the most comfortable position. The front lift assembly accepts screw links for adding a chest ascender or safety lanyards. Attachment points: front waist, sternal, dorsal, sides.

OUTBACK CONVERTIBLE HARNESS

SKU # 202144

CMC CONFINED SPACE HARNESS

SKU # 202165

ATOM GLOBAL HARNESS

SKU # 202229

The Outback Convertible Harness is a lightweight modular system for fast-moving technical teams in remote areas. Certified to EN standards and tested to ASTM standards, the Outback meets the strength requirements for a versatile mountaineering harness capable of rescue, rope access, climbing, and tactical or military operations. Its patent-pending integration lets users configure the harness for the task at hand and share components interchangeably in the field. Every team member wears the belt, edge personnel add leg loops, and vertical technicians get the full ensemble. The Outback Harness goes the distance and gets the job done. It's globally certified, highly configurable, and fully-featured for challenging mountain operations.

Our ANSI-rated Confined Space Harness™ is exceptionally comfortable, even when used for a shoulder lift. The molded waist padding with lumbar support and breathable D3 cloth provide industry-leading comfort. The redesigned buckle system and our unique Web Keepers™ provide ease of adjustment while keeping the web tails in place. Multiple attachment points include fall arrest points and shoulder lift points with a front waist D-ring for comfortable rappels. The mesh vest provides excellent breathability and keeps the shoulder straps organized to make donning easy. A handgrip has been added to the back for assisting the rescuer out of tight spaces. The harness has a radio pocket, a multi-use pocket and a zippered mesh accessory pocket, which is ideal for a small gas monitor. Attachment points: dorsal, front and rear waist, sternal, shoulders.

The ATOM™ Series, our most comfortable harness line ever developed, is the culmination of stripping harness design down to the basics and re-imagining a performance-enhancing tool for rescue and rope access. CMC has incorporated years of feedback from experts who spend long hours in a harness. In addition, the ATOM harness went through rigorous field-testing, resulting in a harness design that improves safety, comfort and workflow efficiency in all the ways you can't see, but feel.

CMC CLUTCH

SKU # 335011

Introducing the all-new CLUTCH, the latest evolution in rescue and rope access hardware that enables the technical rope professional to do more with less.

SIZES

- 11mm
- 13mm

CMC MPD

SKU # 333000

The MPD allows you to go from lowering to raising without changing hardware. The MPD's high-efficiency pulley, with an integral rope-grab mechanism, allows it to be used as a lowering device on the main line and belay line systems and be quickly changed over to a raising system without switching out or replacing hardware. The combination of essential features into a single device simplifies on-scene rigging, expediting the rescue.

SIZES

- 11mm
- 13mm

PROSERIES ALUMINUM CARABINERS

SKU # XR2-NA

Highly Advanced NFPA General-Use Rescue Carabiner.

Patented.

STYLES

- AutoLock
- ScrewLock
- ANSIGate

CMC RESCUE RACK

SKU # CMCRR

CMC's Rescue Rack offers several innovative features to provide enhanced performance. The large diameter aluminum bars provide excellent control for rescue loads. These bars are center drilled to reduce weight and allow for better heat dissipation. The proprietary black finish also prevents transfer of material to the rope, common with bare aluminum bars. The Turbo Bar at the top has a tie-off pin on the side. The second bar has a straight slot to help warn the user of a mis-rigged rack. Since the top two bars do most of the work, they are a full one inch in diameter. The next four angled slot bars are 7/8-inch diameter. The stainless steel frame has a welded eye. Comes assembled, ready for use.

DNA STEEL CARABINERS

SKU # 300095

The DNA Carabiners are unique "helical-shaped" connectors with a twisted carbon steel body and circular bar. This twist enables 90° rotation of any connected device for optimal alignment and offset load management. Ideal for use with descenders, rope clamps, progress capture devices, fall arresters, and the Double CLUTCH. When used in the Double CLUTCH TTRS, the DNA optimizes CLUTCH handle alignment to allow a single operator to manage both CLUTCH handles for simultaneous twin tension control.

CMC RESCUE PULLEY

SKU # 300301

This lightweight, full-strength, Prusik-minding pulley is ideal for mountain rescue, swiftwater, or other technical teams where equipment weight is a significant consideration. By machining the side plates, the thickness of the metal can be varied to maximize the strength-to-weight ratio, a process that cannot be done with traditional bent metal side plates. Sealed ball bearings provide high efficiency and aluminum side plates protect the rope. An extremely low-profile stainless steel axle assembly reduces snagging on rocks, roots, and uneven surfaces. Designed for lifeline up to 1/2 inch (13 mm) in diameter.

TEUFELBERGER KM III

SKU # K00120

Teufelberger KM III static kernmantle rope features composite construction, with the continuous filament polyester sheath braided over a continuous nylon fiber core

SIZES

- 3/8
- 7/16
- 1/2

STATIC-PRO LIFELINE

SKU # 281102

An extremely low-stretch kernmantle rescue lifeline constructed of 100% High Tenacity Polyester (HTP) fiber.

SIZES

- 3/8
- 7/16
- 1/2

PRUSIK CORD & LOAD RELEASE HITCH CORD

SKU # XR2-NA

Made of 100% nylon with a torque-free, kernmantle construction, it comes in solid colors to help differentiate between cords designed for Prusik hitches and climber's accessory cords. Two color choices allow you to use a separate color for each length Prusik in a Tandem Prusik Belay System. The 9-mm cord is the size preferred by rescuers who use cord for a Load-Releasing Hitch.

SIZES

- 6mm
- 7mm
- 8mm
- 9mm

CMC RESCUE RACK

SKU # CMCRR

CMC's Rescue Rack offers several innovative features to provide enhanced performance. The large diameter aluminum bars provide excellent control for rescue loads. These bars are center drilled to reduce weight and allow for better heat dissipation. The proprietary black finish also prevents transfer of material to the rope, common with bare aluminum bars. The Turbo Bar at the top has a tie-off pin on the side. The second bar has a straight slot to help warn the user of a mis-rigged rack. Since the top two bars do most of the work, they are a full one inch in diameter. The next four angled slot bars are 7/8-inch diameter. The stainless steel frame has a welded eye. Comes assembled, ready for use.

SL ANCHOR STRAP

SKU # 201054

SL Anchor Straps feature latex-coated polyester web and forged steel D-rings individually proof-loaded and sized for easy Choker (Girth Hitch) Configuration. Lightweight and compact, the SL model is easy to pack, carry, and deploy. It is classified to NFPA General Use for Basket (U), Choker (Girth Hitch) and End-to-End, providing a high breaking strength to withstand heavy loads on the system. Compared to nylon, the polyester webbing is more resistant to UV and water, and has less elongation. The webbing also stands out due to its bright red color, selected for high visibility, and its contrasting gray stitching, which aids inspection.

CMC FLAT WEB

SKU # 300301

One-inch flat nylon web is a proven performer across a wide range of applications. While not all flat webs will hold knots securely, the CMC Flat Webbing has been specifically selected for the suppleness necessary to allow knots to be set securely. Flat web also tends to be easier to untie after a heavy load than the softer tubular web. While the flat web is bulkier than the tubular, it provides significantly higher strength. Sold by the foot with a maximum spool length of 150 ft (46m). Nylon construction.

Y-SHOK LANYARD

SKU # CMCYSHOK

Maintain fall protection while climbing or traversing towers and structures with our Y-SHOK Lanyard. One snap hook remains secure, while the other is moved to the next attachment point. Each side is an arm's-reach in length, with a total length of 3ft. Lightweight, aluminum ANSI snap hooks are double acting, but can be opened with one hand. Integrated SHOK™ shock absorber reduces impact forces during a fall.

CMC TRISKELION TRIPOD

SKU # 760001

The CMC Triskelion is a fully featured industrial rescue tripod that sets a new benchmark for rapid deployment, ease of use, and versatility. With its 5.5 – 10 ft working height, certification to NFPA and EN standards, and multiple rigging options, the Triskelion delivers greater safety and efficiency for confined space and industrial rescues.

HARKEN RIGGERS WINCH

500

SKU # 733510

Lightweight, CE certified, portable winch mounted to a robust adapter plate. The 2-speed 500 model is lightweight and weighs just 7 kg (15.4 lb). Its maximum rated load of 490 kg (1,101 lb) maximizes operator pulling power by up to 40 times. Multiple mounting options provide versatility when working in challenging or remote environments. The pigtail line lead allows the rope to be installed without feeding the end of the line through with no maximum line length and ensures correct alignment and loading of the winch for maximum efficiency. Stainless steel load-carrying gears and pins for strength and durability. The unique drum design maximizes grip on the rope. Includes a universal mounting plate, 25 cm (10 in) winch handle, and Harken 40.2 winch model.

FASTLOOPS LITTER STRAPS

SKU # 724159

FastLoops™ Litter Straps were devised to be pre-rigged into the litter and left in place for rapid patient packaging. Designed to use a single length of tie-in web laced through the attached O-rings allows for easy tensioning without the friction and wear of web-on-web contact.

CAPTO SOFT SHACKLE

SKU # 293005

Strong, compact, and durable, the CAPTO Soft Shackle is an excellent companion for every CAPTO. Our CAPTO Soft Shackle installs through the CAPTO cam axle to provide an additional attachment point for smooth remote resets and easy device stowage on a harness or gear rack. It should not be considered a life-supporting or load bearing / rated attachment point. The CAPTO Soft Shackle is ideally sized for easy installation and operation. Its low friction Dyneema braid has a 3.5 mm external diameter, allowing it to hand feed through CAPTO's 3.9 mm rivet hole without requiring mouse lines or other tools.

DERBY HELO STRAP

SKU # 201942

Derby Helo Strap™ extraction device quickly attaches the patient to the helicopter hoist hook for a short-haul or hoist rescue operation. This system allows the rescuer to maintain a position behind the subject, securing them around the chest area for an efficient rescue evacuation. Two cinch straps with handles adjust to quickly secure the subject into the system. Originally developed by a southern California fire department for flood channel rescue, the strap can be used for helicopter hoist pick-off rescues from water or cliffs. Heavy-duty webbing and construction used for long life and durability in harsh environments.

KASK ZENITH X2 HELMET

SKU # 346310

PMI ADVANTAGE HELMET

SKU # HL33014

Ceros® XA250

SKU # 16-17001

A compact, hi-tech safety helmet made to exceed global safety standards with exceptional protection from impact and penetration. Now classified to ANSI Type I and II, in addition to EN standards.

For classic styling, maximum comfort and minimum impact, PMI® Advantage offers industrial Kevlar® head protection and plenty of detail oriented comfort. Fully adjustable ratchet headband and straps make this a helmet for almost any size head. Meets NFPA 1951 as a Utility Technical Rescue Protective Helmet Standard

Incredibly comfortable and secure, this multifunctional safety helmet combines climbing style features, our revolutionary Kinetix® suspension system, and premium back-of-head impact foam – perfect for work at height, with high movement, and in confined spaces.

DECAL SET (FF)

SKU # 346701

DECAL SET (SAR)

SKU # 346702

DECAL SET (USAR)

SKU # 346703

Customize your KASK rescue helmet while adding increased night visibility. Decals are manufactured from high-quality 3M reflective material and die-cut for easy installation. Decals have been tested and approved for use by helmet manufacturer. Available in ; FIRE RESCUE

Customize your KASK rescue helmet while adding increased night visibility. Decals are manufactured from high-quality 3M reflective material and die-cut for easy installation. Decals have been tested and approved for use by helmet manufacturer. Available in ; SAR

Customize your KASK rescue helmet while adding increased night visibility. Decals are manufactured from high-quality 3M reflective material and die-cut for easy installation. Decals have been tested and approved for use by helmet manufacturer. Available in ; USAR

RIT-CRAFT

SKU # 478103

A versatile, multi-season workhorse for almost any terrain or water type, the RIT-Craft by 2Tinga has myriad rescue applications. Without costly attachments, it can be easily towed behind a boat or personal watercraft, an ATV or a snowmobile. On ice or snow, it slides across the surface or can be dragged by responders. In open water, one or two people can easily paddle the craft, which tracks extremely well in the water to enable swift patient retrieval. The patient can be placed on the working deck so vital signs can be monitored en route to the shore. The RIT-Craft completely inflates in just over a minute and its compact size when stowed can be stored in most apparatus compartments.

NFPA THROWLINE BAG SET

SKU # 291750

CMC's NFPA Throwline Bag Set combines the CMC NFPA Throwline* with our economical pack cloth bag. The 8-mm diameter line allows for a very compact throw bag.

SIZES

-50'

-75'

ANTI-EXPOSURE SUIT - YOUSAFE™ HURRICANE

SKU # PS4190

Dual-approved (SOLAS/CE), fitted and ergonomically enhanced, the VIKING YouSafe™ Hurricane anti-exposure suit is designed to perform across multiple marine applications. Beyond excellent protection, it offers great comfort, functionality and freedom of movement, making it a truly outstanding protective suit for marine and offshore personnel.

NFPA THROWLINE

SKU # 293387

Designed to meet NFPA standards for a floating water rescue throwline, our NFPA Throwline, made with a Dyneema® core and polypropylene sheath, handles extremely well. The bright yellow color is highly visible. A throwline bag is the safest way to reach a subject in fast-moving or still water. It provides a downstream safety backup when rescuers must enter the water. Throwline bags should be kept in patrol cars, ambulances and other emergency response vehicles. Per NFPA standards, after a 24-hour immersion in water, the entire length of the throwline must float to the surface within one minute.

SKED STRETCHER FLOTATION SYSTEM

SKU # 756001

The flotation system for the Sked Stretcher maintains the patient in a nearly vertical position. It is designed so that a patient in the water can be loaded into the stretcher. Self-righting, it will keep the patient's head above water even in rough seas. The Flotation System fits both full-size and pediatric Sked Stretcher models.

RESQMAX COMPLETE KIT

SKU # 564060

The ResQmax Complete Kit provides versatility with a Line Projectile for delivering a messenger line or a Sling Projectile for deploying an inflatable sling. Each line has its own compact container, ready for instant deployment. The Complete Kit packs in a rugged Pelican Case with molded liner.

LEVR™ ESCAPE SYSTEM

SKU # 500365

The LEVR Escape System is built around CMC's patented LEVR Descender, a next-generation device that uses its lever-shaped handle for progressive descent control, fast and easy horizontal pay-out, reliable edge transition, and intuitive operation. Designed to assure rapid emergency egress with safe, controllable descent

CONFINED SPACE RESCUE RIGGING KIT

SKU # 501302

This Rigging Kit contains the necessary equipment for vertical entry in confined space rescue operations. It includes a primary access line, belay/retrieval system, and patient packaging equipment. The latest products are provided for optimal safety and efficiency including the CMC_CSR2 Pulley System™ for 4:1 raising and lowering, the CMC Triskelion™ as artificial high directional, and the CMC CLUTCH™ BY HARKEN INDUSTRIAL™ for smooth rope management. Innovative features of the CLUTCH make it ideal for technical rescues including the ratcheting rotating sheave, Anti-Panic brake, force limiting protection, and integrated becket.

DOUBLE CLUTCH TTRS KITS

SKU # 501411

Built around the versatile CMC CLUTCH™ by Harken Industrial™, our DOUBLE CLUTCH Twin Tension Rope System (TTRS) Kit provides best practice twin tension hauling and lowering for technical operations. This premier kit allows technicians to run two rope systems at separate anchors or nested together for side-by-side operation. Mechanical advantage systems can be built on both ropes simultaneously, including a 3:1, 3:1 with change of direction, or complex 5:1. Organized, color-coded, and ready-to-go, this kit minimizes gear sorting and allocation. Teams can shoulder their packs knowing they are prepared to quickly and efficiently deploy TTRS.

USAR TASK FORCE RIGGING KIT

SKU # 500602

The equipment provided allows for a main and belay line, mechanical advantage, litter with patient-packaging system, gear for building anchors, AZTEK PROSERIES® LT System, and two of the CMC CLUTCH™ BY HARKEN INDUSTRIAL™ for efficient raising and smooth lowering. Innovative features of the CLUTCH make it ideal for technical rescues including the ratcheting rotating sheave, Anti-Panic brake, force limiting protection, and integrated becket.

LITTER HARNESS KIT

SKU # 501106

This kit includes our Litter Harness in addition to the Patient Tie-In System and Patient Tie-In Pelvic Harness. The AZTEK PROSERIES® LT System is included for attaching the litter attendant to the litter harness tender line. Litter sold separately.

HARKEN LOKHEAD WINCH KIT (NFPA)

SKU # 733500

The Harken LokHead Winch Kit (NFPA Technical Use) is a man-riding portable capstan winch specifically designed for confined space rescue retrieval or for use with davit systems using an unlimited length of life safety rope. The captive head allows the winch to be used safely, and keeps the rope from accidentally coming off the winch and releasing. The LokHead Winch Kit comes complete with everything needed for a tripod setup.

INTRANT RECHARGEABLE ANGLE LIGHT

SKU # XPR-5568GX

Intransit rotates 90 degrees up and down with a 45 degree downward angled floodlight. Multiple settings offer user-selectable brightness of 200, 110, and 60 lumens with a 401 meter beam distance. The ultra-tight beam is perfect for cutting through smoke and lighting up objects at great distances. The floodlight setting has user-selectable brightness settings of 100, 40, and a Survival Mode of 20 lumens that provides just enough light in an emergency situation with a run-time of 27 hours. The Dual-Light™ mode allows the user to simultaneously see objects at a distance or through the smoke, as well as see the ground in front of them as they walk or work.

INTEGRITAS RECHARGEABLE LANTERN W/MAGNETIC BASE

SKU # XPR-5584GMX

The INTEGRITAS™ 84 Intrinsically Safe Rechargeable Lantern generates a scene-filling 600 lumens for an ultra-long 13 hours from four separate LEDs housed in a 180-degree articulating head for maximum versatility. Holding down the switch enables a battery-saving 250-lumen low mode, extending runtime to 25 hours when work demands extreme use. Designed and engineered as both a hand-held lantern and portable area light, the 5584 features a rear-mounted rubber base pad featuring a 25 lb. pull-force rare earth magnet for convenient hands-free, adjustable scene lighting on demand.

VIRIBUS RECHARGEABLE LANTERN

SKU # XPR-5580G

The VIRIBUS® 80 Intrinsically Safe Dual-Light rechargeable lantern is a flashlight, floodlight, and a 300 Lumen Dual-Light that is cULus, UKCA, ATEX Zone 0, and IECEx certified intrinsically safe. The flashlight setting offers 3 user-selectable brightness settings of 210, 100, and 30 lumens with a 635-meter beam distance. The flashlight beam is perfect for cutting through smoke and lighting up objects at great distances.

FORGE HELMET-MOUNTED FLASHLIGHT

SKU # XPP-5465R

Nightsticks Intrinsically Safe helmet-mounted multi-function flashlight is the most versatile choice for helmet-mounted hands-free lighting. This light outshines the competition with its powerful 360 lumen tightly focused flashlight and a beam distance rating of 218 meters (715 feet). Choose a lower 180 lumen setting for increased runtime or the 30 lumen Survival Mode for 30 hours. Fits on any fire helmet. The 5465 is IP-X7 rated waterproof and meets the requirement for NFPA-1971-8.6 (2013). Powered by 2 CR123 batteries (included). Not compatible with rechargeable batteries.

FORTEM HELMET-MOUNTED FLASHLIGHT

SKU # XPP-5466R

Nightsticks Fortem User-adjustable flashlight modes range from 250 lumens on high, 100 lumens on medium, and 25 lumens on low. Use the floodlight to light up your gear or feet as you walk by adjusting from 115 lumens on high, to 50 lumens on medium. The potentially life-saving 10 lumens Survival Mode. The Dual-Light™ mode (both the flashlight and the floodlight turned on at the same time) has 150 lumens to provide maximum safety. Light has a green, rear-facing LED light so that others can easily see in low visibility situations.

LOW-PROFILE DUAL-LIGHT HEADLAMP

SKU # XPP-5460GX

This Zone 0, Intrinsically Safe low-profile Dual-Light headlamp is cULus, ATEX and IECEx listed Intrinsically Safe. Designed specifically for fire helmets and hard hats with a flip-up face shield. The unique low-profile shape allows the user to work without having to remove the headlamp when raising or lowering their face shield.

**PELICAN BATTERY LANTERN
9415**

SKU # 9415

At just 3 pounds and 588* lumens, the new 9415 LED Lantern packs the power without the weight. Four LEDs, powered by the latest generation Ni-MH batteries illuminate a distance of 314 yards (288* meters). And it's loaded with innovative technology and features you have come to expect from Pelican. Whether you're on a USAR team or the 3rd shift at a refinery, you'll appreciate the compact size and high output of the new 9415 LED Lantern.

**PELICAN RIGHT ANGLE
RECHARGEABLE LIGHT 3765PL**

SKU # 3765PL

Pelican leads the way yet again with its new right angle light. Featuring downcast LEDs for illuminating your path, the new 3715 LED light also features 233 lumens (high) and 113 lumens (low), and a flashing mode. Another first is a built in battery life indicator so you will know your light's battery level before you go in. Compact, rugged, and lightweight, the 3715 LED light contains the latest technology, Pelican's legendary build quality and lifetime guarantee of excellence.

**Little Ed
Right Angle Light**

SKU # 3610PL

Same as the 3610 Flashlight, but outfitted with a lens ring that emits a bright glow in the dark. The new generation photoluminescent material in the plastic absorbs the energy from any light source - fluorescent lights, the sun, or even the flashlight's own beam. No more fumbling in the dark for your flashlight. The Little Ed 3610PL is powered by 4 AA alkaline cells (included).

**PELICAN BATTERY
LANTERN 9050**

SKU # 9050

The 9050 includes industry first technology - The flexible battery system allows you to select between Li-ion, AA alkaline or AA NiMH to operate the light. Four battery slots let you maximize runtime. The quick-change battery system means that you have continuous lighting to get the job done. Select between spot, flood, spot/flood, or flashing modes to find the right beam for your job. The spot/flood light head outputs up to 3369 lumens without the need for diffusers or attachments so you can quickly choose the right beam type for your job. A redesigned charger base makes mounting and dismantling the lantern quick and easy. Rear taillights with adjustable colors make notification or identification as simple as pressing the dedicated switch.

**PELICAN RIGHT ANGLE
RECHARGEABLE LIGHT 3415**

SKU # 3415

The 3415 is the ultimate safety certified compact work light. The Class I II III Division 1 certifications provide the security needed for most hazardous locations. The 3415 is equipped with both a spot and flood LED for close-up as well as distance, so you can have wide area light in the immediate work area and still penetrate darkness hundreds of yards away. It can be activated to run one or both LEDs with 3 levels of brightness. The articulating head and built-in clip allows the light to be directed wherever it is needed. The full time battery level indicator ensures you will always know where your battery status is.

PELICAN HEADLAMP 2755

SKU # 2755

Pelican™ safety approved headlamps are designed for use in hazardous environments. It is not only Class I Div 1 approved but also is ultra compact and lightweight. Equipped with a single high-powered LED, it produces up to 118 lumens and provides up to 16 hours of run time and offers multiple modes (high, low, flashing). Additionally, the Pelican 2755 offers a low battery indicator which can prove to be most valuable. It is available in two colors (yellow or black). Count on Pelican to bring you the best in lighting design and technology.

**PELICAN REMOTE AREA LIGHT
9430**

SKU # 9430

**PELICAN REMOTE AREA
LIGHT 9440**

SKU # 9440

**PELICAN REMOTE AREA
LIGHT 9470M**

SKU # 9470M

Remote Area Lighting Systems from Pelican are the complete lighting solution for first responders, industrial and aerospace applications. Has 15+ hours of run time, 3000 lumens in brightness.

The 9440 now offers three pre-set power levels, battery level indication and comes equipped with a lithium ion rechargeable battery. The 9440 moves fast to light up ravines, confined spaces, riverbanks, anyplace generator lights can't go. Deployed, the mast extends 7 feet (2.1 meters) high, shining light over low obstructions encountered by traditional lantern style lights. With a 125 degree beam spread and up to 5300 lumens, your entire work area will have the light you need for a safe and efficient operation. The 9440 is able to run directly from wall power if needed and can be left on charge indefinitely which makes for an invaluable emergency preparedness tool.

The 9470M is built with a set of XL wheels providing easy transport over rough terrain. Engineered with the Intelligent Control System which calculates and displays current battery life. Built with versatility in mind, the 9470M RALS features four telescopic masts (each extends to nearly 6 feet) and four 360° articulating light heads. The system's next-generation LEDs combine to radiate up to 24,000 lumens (6,000 per light head). For extended applications, the 9470M can run continuously on wall power. The ability to leave on charge allows you to always be prepared. A 12 volt power port including a dual USB adapter provides power for many peripheral devices. Built self-contained in a tough-as-nails Pelican case, the 9470M is compact and includes the multi-terrain trolley with a retractable pull handle and stainless steel ball-bearing 1.5 inch polyurethane wheels.

**NIGHTSTICK SCENE LIGHT
W/TRIPOD**

SKU # XPR-5592GCX

**PELICAN REMOTE AREA LIGHT
9480**

SKU # 9480

**PELICAN REMOTE AREA LIGHT
9455**

SKU # 9455

The XPR-5592GCX Rechargeable LED Scene Light Kit is ideal for use when portability is important. Zone 0, cULus, ATEX, IECEx, and InMetro certified Intrinsicly safe for use in hazardous environments, the array of 5 floodlight LEDs perfectly emit an impressive 1,200 lumens on high for 6 hours, or 650 lumens on low for 12 hours when activated using the robust three-position toggle switch. This scene light has a housing that is constructed from lightweight glass-filled nylon polymer keeping it cool to the touch while being chemical, heat, and impact resistant.

Remote Area Lighting Systems from Pelican are the complete lighting solution for first responders, industrial and aerospace applications. Has 28+ hours of run time, 4000 lumens brightness

Pelican™ safety approved headlamps are designed for use in hazardous environments. It is not only Class I Div 1 approved but also is ultra compact and lightweight. Equipped with a single high-powered LED, it produces up to 118 lumens and provides up to 16 hours of run time and offers multiple modes (high, low, flashing). Additionally, the Pelican 2755 offers a low battery indicator which can prove to be most valuable. It is available in two colors (yellow or black). Count on Pelican to bring you the best in lighting design and technology.

Blackline G7C

SKU # G7C-NA

Get peace of mind with the wearable G7 multi-gas detector that harnesses connectivity, paired with data insights, for fast incident response to better protect your people from potential hazards and improve safety processes and compliance over the long term.

Type

- Pumped
- Multigas
- Single gas

Blackline G6

SKU # G6-NA

G6 continuously monitors gas concentrations in the ambient environment and activates low and high urgency notifications when concentrations exceed setpoints, allowing operators to respond quickly and safely to changes in their environment.

Type

- Single Gas

Blackline EXO

SKU # EXO-NA

G7 EXO is the world's first cloud-connected area monitor with integrated 2G/3G/4G communications

Type

G7 DOCKING STATION

SKU # G7-DOCK

The Blackline Safety G7 Dock is the simple solution to calibrating, bump testing and charging G7 devices. Docks arrive ready to perform, requiring no initial setup, and can manage up to four single- or multi-gas cylinders. Docks can be used with both G7c and G7x devices, and support G7 Single-gas or Quad-gas cartridges. Managing calibrations and bump tests is easy using the G7 device's LCD screen and navigation system —no complicated menus, ports or setup. G7 Dock uses the cloud-hosted Blackline Live™ portal for device management and to store data for reporting and compliance tracking — gas inlets can be configured through user accounts from a desktop or phone.

G6 DOCKING STATION

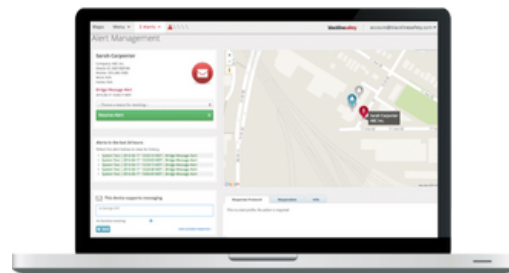

SKU # G6-DOCK

G6 Dock is Blackline Safety's accessory for completing compliance operations (bump testing and calibration) on G6.

Blackline Live

SKU # BL-NA

The Blackline Live portal is at the core of all G7 solutions, equipping businesses with leading safety monitoring tools, dashboard and comprehensive configuration management of fielded devices. Monitoring portal user accounts deliver everything needed to manage an emergency situation effectively — the safety status of every team member is visible, complete with custom emergency response protocols.

TELEDYNE PS200

SKU # PS200

The PS200 Series combines quality, ruggedness and advanced technology in a user friendly, portable gas monitor. It is compact, lightweight, water resistant, extremely robust, and is certified to multiple international and regional standards. In addition to extensive datalogging capabilities,

Type

- Multigas
- Pumped

Protégé ZM

SKU # ZM-NA

The Protégé ZM single gas monitor is an easy-to-use, zero maintenance gas detection solution that delivers high performance in a small, ergonomically designed package. It is available in oxygen, carbon monoxide and hydrogen sulphide single gas models. This single gas monitor is incredibly reliable, giving industrial workers and first responders the confidence to focus on the task at hand, not on their equipment.

Type

- Single Gas

GS700 - Hydrogen

SKU # GS700-H

This upgraded GS700 model incorporates the capability to detect hydrogen (H₂), in addition to its existing ability to detect natural gas. This integration of natural gas and H₂ detection within a single instrument enhances versatility and performance across various gas utility applications.

Type

- Single
- Pumped

PS200 DOCKING STATION

SKU # PS200-DOCK

The multifunctional Auto Bump/Calibration (ABC) station provides simple but intelligent testing and calibration of the PS200 portable gas detector. Easy to use, with a durable, user friendly design, this automated test station offers high performance from a PC or stand-alone unit. The ABC station dramatically improves compliance record-keeping, efficiency and accuracy. Once the PS200 is placed in the dock it can be tested, calibrated and charged. Extremely cost effective, the station requires no testing and minimal effort by users.

GT-Fire

SKU # GT-50

The GT-Fire is a dedicated hand-held methane detection meter specialized for the fire industry. This user-friendly meter has an ergonomic design coupled with a rugged polycarbonate construction that ensures durability and ease of operation as standard.

Type

- Pumped

Natural Gas Laser

SKU # T-NGL

Highly advanced laser technology designed to detect natural gas with the aim of enhancing safety and improving detection for fire services, first responders and utility markets.

Dräger X-am 5600

SKU # 5600

Dräger X-am® 5600 is the smallest gas detection instrument for the measurement of up to 6 gases. Ideal for personal monitoring applications, this robust and water-tight detector provides accurate, reliable measurements of explosive, combustible and toxic gases and vapors as well as oxygen.

Type
-Multigas

Dräger X-am 8000

SKU # 8000

Clearance measurement was never this easy and convenient: The 1 to 7 gas detector detects toxic and flammable gases as well as vapors and oxygen all at once – either in pump or diffusion mode. Innovative signaling design and handy assistant functions ensure complete safety throughout the process.

Type
-Multigas
-Pumped

Dräger Pac 6000

SKU # 6000

The Dräger Pac® 6000 disposable personal gas detector measures CO, H₂S, SO₂ or O₂ reliably and precisely, even in the toughest conditions. The robust design, quick sensor response times, and a powerful battery ensure maximum safety for up to two years with virtually no maintenance required.

Type
-Single Gas

Dräger X-pid® 9500

SKU # 9500

The selective PID gas measurement device is ideal for users who frequently test for hazardous toxic substances. Benzene, butadiene and other volatile organic compounds (VOCs) are carcinogenic even in the smallest concentrations. Selective measurement is necessary because other gases and vapors are often also present. The gas measurement device allows for short test times and lab-quality results.

Type
-Pumped

Dräger X-dock

SKU # N/A

The Dräger X-dock® provides a modular solution for bump/functional testings, calibrations, and storage of documentation.

Dräger Gas Detection Tubes

SKU # N/A

High precision guaranteed: The Dräger sampling tubes and systems are very reliable in use even with complex compounds and mixtures of substances.

Honeywell BW™ Flex

SKU # CPD-W5X1H1M1-Y-00

Honeywell BW™ Ultra

SKU # HU-X1W1H1M1Q1-B-N

MultiRAE

SKU # MBA3-00C112E-020

Whether you're protecting workers or first responders in industries from steel and wastewater to paper and pulp, Honeywell BW™ Flex delivers the flexibility you need. Choose from more than 15 sensors to simultaneously detect up to 4 gas hazards.

Type

-Multigas

The Honeywell BW™ Ultra is a five-gas detector from Honeywell that is designed specifically for sampling and monitoring confined spaces, before and after entry. The Honeywell BW™ Ultra simultaneously detects the four gases you're required to monitor in confined spaces. Plus there is a fifth sensor for the gas of your choice. This way you can add a fifth level of protection for your confined-space entries.

Type

-Pumped

MultiRAE is the most advanced portable chemical detector on the market. With the flexibility of up to six gas sensors and the convenience of wireless portability, this multi-gas monitor is versatile and customizable, while delivering real-time access to instrument readings and alarm status from any location. Choose from 25 sensor options including LEL, PID, NDIR, and exotics that can be easily changed in the field.

Type

-Pumped

UltraRAE 3000

SKU # 059-D310-000

The UltraRAE 3000 is the most advanced Compound-Specific Monitor on the market. Its Photoionization Detector's (PID) extended range of 0.01 to 10,000 ppm in VOC mode and 10 ppb to 200 ppm in benzene-specific mode makes it an ideal instrument for applications, from entry pre-screening during refinery and plant maintenance to hazardous material response, marine spill response and refinery down-stream monitoring.

Type

-Pumped

IntelliDoX

SKU # DX-CP

The IntelliDoX system combines smart docking modules and device management software to provide automated instrument management for Honeywell BW™ Solo, Honeywell BW™ Ultra, BW™ MaxXTII, BW™ Clip Series, Honeywell BW™ Clip4 and Honeywell BW™ MicroClip Series gas detectors - helping you drive productivity, reliability and efficiency.

RAE Gas Detection Tubes

SKU # N/A

Perform quick, on-the-spot measurement of specific toxic and combustible substances with this traditional, low-cost solution. The hand pump features a spring-less piston to accurately draw 50 and 100cc samples. The single-use colorimetric gas detection tubes change color in direct correlation to the concentration of gas present. No calibration is required, and the ergonomic pump can be used even with multiple layers of gloves.

TEMPEST TIC 4.3

SKU # TT-4.3

Effective and versatile thanks to its 3 action buttons, and equipped with a large 4" screen, Tempest TIC 4.3 thermal imaging camera is particularly suitable for indoor fire attacks. Combined with its compact size (2.1 lbs), this TIC has all the important features for fire operations (5 coloring modes, Video recording, Photo shooting, Laser pointer, Zoom, etc.) It incorporates an ultra-sensitive infrared sensor (17µ Silicon Amorphous aSi 384 x 288), a germanium window to protect the internal electronics, and a wide-angle lens (H 40° V 51°).

TEMPEST TIC 3.3

SKU # TT 3.3

Efficient and versatile because of its 3 action buttons, the Tempest TIC 3.3 thermal imaging camera is particularly suitable for indoor fire attacks. Combined with its compact size (2.05 lbs), this TIC has all the important features for fire operations (5 coloring modes, Video recording, Photo shooting, Laser pointer, Zoom, etc.) It incorporates an ultra-sensitive infrared sensor (17µ Silicon Amorphous aSi 384 x 288), a germanium window to protect the internal electronics, and a wide-angle lens (H 40° V 51°).

ECOPOL, MULTIPURPOSE FLUORINE-FREE FOAM (F3)

SKU # BIO-ECO

ECOPOL, a synthetic multipurpose alcohol-resistant (AR) concentrate free of fluorine component. This AR-F3 foam has great foaming and wetting properties and is highly efficient in fire extinguishment and burnback resistance against a variety of risks: class B hydrocarbon as well as polar solvent and class A fires.

TEMPEST TIC 4.3LR

SKU # TT-4.3LR

Efficient and versatile because of its 3 action buttons, the Tempest Long Range TIC 4.3LR thermal imaging camera is particularly suitable for search and rescue. Combined with its compact size (2.25 lbs), this TIC has all the important features for fire operations (5 coloring modes, Video recording, Photo shooting, Laser pointer, Zoom, etc.) It incorporates an ultra-sensitive infrared sensor (17µ Silicon Amorphous aSi 384 x 288), a germanium window to protect the internal electronics, and a wide-angle lens (H 40° V 51°).

ECOPOL N, NEWTONIAN FLUORINE-FREE FOAM (F3)

SKU # BIO-ECOPLN

ECOPOL N extinguishes Class B hydrocarbon fires quickly and prevents re-ignition thanks to a durable foam mat. Its extinguishing performance is certified according to EN1568-3 v2018.

ECOPOL A+, NEWTONIAN FLUORINE-FREE FOAM CONCENTRATE (F3)

SKU # BIO-ECO A

ECOPOL A+ is superior quality synthetic Fluorine-Free Foam (F3) concentrate for aircraft fire protection, especially class B hydrocarbon fires, and approved by ICAO (International Civil Aviation Organization) standard.

Kappler DuraChem 500

SKU # DC500

Certified to NFPA 1990 (1994) Class 1 and Class 2, DuraChem 500 offers CBRN/Hazmat protection in a tactical style garment. In addition to the Chem-Bio requirements, which include warfare agent testing, the NFPA 1990 (1994) standard also includes general Hazmat response to expand the applications for DuraChem 500. Designed as a 'multi-use, single-exposure' garment, it is a smart, budget-friendly alternative to expensive reusables.

Kappler Zytron 300

SKU # ZT300

Zytron® 300 is ideal for demanding hazardous applications where there is potential for chemical splash, even in significant exposure scenarios, as well as for biohazard applications. Excellent physical strength and broad chemical holdout take the protection level of this fabric up a serious notch. With an extensive chemicals-tested list, Zytron 300 is a real workhorse of the Zytron family, available in a wide range of garment types including NFPA certified styles. In addition, Zytron 300 fabric and seams have been tested for blood and viral resistance in accordance with ASTM F 1671 and show passing results.

ChemTape

SKU # CHEMTAPE

Chemtape is Kappler's exclusive solution for taping gloves, boots, respirators, and storm flaps, plus shelter in place applications. For added assurance with your PPE applications, this chemical-resistant tape provides similar holdout to Kappler's most advanced protective suit fabrics.

Kappler Zytron 500

SKU # ZT500

Zytron® 500 is the classic emergency responder choice for hazmat response and other demanding situations. It's tough, built for mobility, and based on patented technology that created the first material to survive eight full hours against the ASTM F1001 Test Battery with no breakthrough. Now with an extensive chemicals-tested list numbering in the hundreds, it's no wonder that responders around the world trust Z500 garments for ultra-demanding Level A and Level B applications.

Kappler Frontline 500

SKU # FL500

Certified to NFPA 1990 (1991), Frontline® 500 offers proven three-way protection – broad chemical holdout, plus flame resistance and radiant heat protection for the additional hazards encountered in a chemical flash-fire. NFPA certification includes base plus Optional Flash Fire and Liquefied Gas requirements. Like many Kappler garments, this is a 'multi-use, single exposure' suit. Frontline 500 provides excellent holdout for the ASTM F1001 battery and many additional chemicals.

Kappler Zytron 400

SKU # ZT400

Zytron® 400 is one tough customer, with excellent physical properties. It's also a bargain by comparison, with a broad range of chemical protection typically found in garments costing much more.

RUPTURE SEAL PRO EMERGENCY RESPONSE KIT

SKU # PRO

In just seconds Rupture Seal creates an instant mechanical seal to plug even rough, unclean or splintered surfaces, making it the best all-in-one solution for the control of water leaks, fuel and chemical spills, for hazmat and first responders, transport container and saddle tank ruptures, forklift punctures, pipe leaks, breaches and more. Faster to deploy than putty compounds, urethane foam or wooden/screw plugs - and easier to remove after the fact. And unlike sealing tape, Rupture Seal is compatible for fuel leaks.

Includes

- 4x RS 1"
- 3x RS 2"
- 1x RS 2"x6"
- 1x Emergency Pipe Leak Plug

RUPTURE SEAL EMERGENCY RESPONSE KIT

SKU # RSSK

In just seconds Rupture Seal creates an instant mechanical seal to plug even rough, unclean or splintered surfaces, making it the best all-in-one solution for the control of water leaks, fuel and chemical spills, for hazmat and first responders, transport container and saddle tank ruptures, forklift punctures, pipe leaks, breaches and more. Faster to deploy than putty compounds, urethane foam or wooden/screw plugs - and easier to remove after the fact. And unlike sealing tape, Rupture Seal is compatible for fuel leaks.

Includes

- 2x RS 1"; 1x
- RS 2"; 1x
- RS 2"x6"; 1x
- Pipe Leak Plug 2 pack

Husky Portable Containment Pool

JUSTRITE Folding Spill Containment Berm, Rigid-Lock QuickBerm Lite

SKU # 28374

Versatile, on-the-go spill containment berm features patented Rigid-Lock wall supports to maximize usable space inside the berm. One-piece design sets up fast and easy — deploys quickly for emergency spill response. Sturdy walls with stainless steel braces lock at 90° offering strong structural integrity. Black support hub constructed from a high-strength engineered nylon accepts anchors to withstand wind loads of up to 40 MPH for reliable containment under high wind conditions. Supports resist extreme temperatures (-50F to 160F). When in the down position, they can withstand vehicle weights in excess of 11,000 lbs (5,000 kg) at each tire. Unobstructed sump offers larger storage and working area for oddly shaped machinery, transformers, and other leaky containers. Tough EnGuard™ PVC coated fabric provides broad UV and chemical resistance.

PETROPAD ABSORBENT PAD

SKU # ZT400

Justrite PetroPad™ Smart Polymer Spill Pads are uniquely designed to absorb and permanently solidify hydrocarbons like oil, diesel and gas. The exclusive blend of polymers found in the PetroPad safely transform hazardous hydrocarbons from incidental spills and leaks into a non-hazardous solid.

WYK DRUM BARREL PATCH

SKU # 968

WYK Sorbents presents their barrel patch. A 5" x 7" patch supported by a 6' strap. Stop the flow of liquid from a standard sized barrel and protect your workers!

WYK UNIVERSAL SOCKS

SKU # 608

Retains and solidifies liquids, no secondary spills or drips. Fast! Can reach capacity in 20 to 30 seconds! Highly absorbent soaking up to 14 times it's own weight! Universal, safe for use on oils, acids, caustics and most other chemicals.

Case Sizes

- 6
- 10
- 15

WYK UNIVERSAL MELTBLOWN PADS

SKU # 4406

Perfect for general application this dimpled material provides quick wicking power and economy all in one! Universal, soaks up oils, water and most everything else. Provides instant action, wicking up liquids quickly. Pads are dimpled providing added strength. High Loft construction provides better absorbency. Best choice when pads are not used to capacity

FLUIDLOC ENCAPSULATING SORBENT

SKU # HPFFWT

This uniquely formulated sorbent has the power to solidify while eliminating bad odors. Encapsulates all aqueous based (water) liquids. Super concentrated – absorbs up to 150 times it's own weight in aqueous based fluids. FLUIDLOC sorbent makes cleanup fast and safe and easy. FLUIDLOC is non-reactive, non-flammable, non-toxic, inhibits vaporization and associated bad odors and is completely safe to use.

WYK SUPER SORBENT

SKU # 2012

Super Sorbent was developed by WYK Sorbents to improve the capacity, reduce the weight of our inert granular sorbents. Same results with less handling and ultimately less waste to dispose of. LIGHTER WEIGHT – MORE ABSORBENT. NON BIODEGRADABLE. INERT AND INSOLUBLE. TURNS ALL TYPES OF LIQUID INTO NON HAZARDOUS SOLID WASTE. CERTIFIED FREE OF RESPIRABLE SILICA. NSF LISTED "For all non food contact surfaces"

WYK ACIDSAFE NEUTRALIZING SORBENT

SKU # AN3005

A fast, safe and efficient method to neutralize and absorb acid spills, ACIDSAFE contains an indicator that provides a visible color change to indicate complete neutralization. Color indication initially indicates the strength (PH) of the acid: Gold indicates a strong acid; Yellow indicates a mild acid. When mixture turns purple a second time it has been neutralized to a safe PH range.

HUSKY FRAMED DECONTAMINATION POOLS

SKU # H-FDP

Husky® Folding Frame Decontamination Pools are built with a steel frame or aluminum frame and utilize a 22 oz. PVC liner.

FIREWIPES

SKU # FW-X

Firewipes® are used primarily to aid in the cleaning and removal of soot, smoke and other potential carcinogens of complete and incomplete combustion. They are innovative in design as each wipe is optimized for safety and ease of use. The Firewipe is an 8" x 12" biodegradable industrial strength disposable wipe infused with cleansing compounds for use on all external dermal areas. The wipe is saturated with a unique formula specifically designed to minimize additional carcinogenic exposure through dermal absorption for the user.

JUSTRITE Portable Hughes Decontamination Shower

SKU # PORTA300-16E

First responders, governments and the military have a duty to plan and prepare for the protection of the public in the event of an accident, disaster or attack using chemical, nuclear or biological agents. Lightweight yet robust for emergency use, this 16-nozzle portable decontamination shower removes contaminants from protective clothing prior to removal. The 1-1/2 in. lay-flat rubber hoses form four shower legs, each of which is fitted with four spray nozzles. Once erected and coupled to a fire appliance using the 1-1/2 in. NH (F) hose connection, water entering the apparatus cause the hoses to become rigid under pressure, adopting a curved form to provide 360° decontamination.

HUSKY DECONTAMINATION SHOWER SYSTEMS

SKU # HPFFWT

This complete Husky® Decon Shower System includes everything you need to quickly set up a portable decontamination shower system any place where water/decontamination solution is available. Our lightweight, collapsible, low-pressure decontamination showers can be used to eliminate or reduce suspect contamination on workers, visitors, responders, victims, and patients during emergency incidents or in industrial or agricultural settings when fixed showers or integrated response vehicles are not available.

JUSTRITE BIOHAZARD BAGS

SKU # 05901

For safe, temporary collection of biological waste or contaminated materials. Red color is easily identifiable as biohazard bags. Printing includes English, Spanish and French translation along with the international recognizable biohazard symbol. 15 Gallon capacity bag fits Justrite Biohazard cans of 6 and 10 Gallon sizes. High density polyethylene of 11 microns thickness provides secure handling to avoid punctures and tears. A tubular construction with a single side seal and star seal bottom provide a stable, leak proof bag. Sold in packs of 100.

JUSTRITE Portable Hughes Self-Contained Safety Shower

SKU # H40K45G-1H

This highly mobile, self-contained safety shower with eye/face wash holds 30-gallons (114-liter) of water for use in responding to potential accidents anywhere. Suitable for temporary use, this exclusive design features a corrosion-resistant, polypropylene-lined pressurized cylinder and only requires the connection of a hose from a water main to fill it ready for use. It is ideal for cold climates with a minimum ambient operating temperature of -4°F (-20°C) or above; soft polyester coated PVC jacket features a silicone glass cloth inner lining and a heated and insulating matt.

Tempest VS1.3M

SKU # VS-1.3M

The Tempest® Tech Series is an innovative line of positive pressure blowers featuring ergonomic design features and leading edge motor technology and performance. Tech Series blowers are engineered for performance, durability, versatility, and ease of use. VS-1.3M Tech Series powered by MILWAUKEE® M18™ REDLITHIUM™ HIGH OUTPUT™ HD12.0 Batteries, is built for power & versatility.

TEMPEST BB-16

SKU # BB-16

Equipped with a battery, the BB-16 allows operations to be carried out independently. In addition, it does not need to be connected to a power source, which avoids another accident to occur due to cables dragging on the ground. COMPACT AND MOBILE
Lightweight and equipped with a carrying handle and strap, it is portable by one person.
Folds up and stows easily in the trunk of a vehicle. Two BB-16's occupy the space of one conventional fan.

TEMPEST BATTERY-POWERED FAN

SKU # B215-LI+

The swappable battery-operated fan from Leader is powerful and lightweight for self-contained operation. Developed by LEADER is the optimal GRILLE / PROPELLER / VOLUTE combination allowing LEADER fans to obtain up to 20% additional flow for unmatched power in their category. NEO technology therefore creates an ovalized jet that perfectly matches the shape of the entrance door to the room to be ventilated.

TEMPEST ELECTRIC POWERED FAN

SKU # EVG230

A very concentrated and ultra-powerful jet of air due to an optimal combination of: A high-strength propeller matched to the power of the engine A red double-layer monobloc shroud made of reinforced high-density polyethylene A high-tech composite grille. Positioning from 3 Ft to 19.7 Ft in front of a door without loss of power for: more space to move about. Less noise inside the building

TEMPEST VS-1.2D

SKU # VS-1.2D

The Tempest® Tech Series is an innovative line of positive pressure blowers featuring ergonomic design features and leading edge motor technology and performance. Tech Series blowers are engineered for performance, durability, versatility, and ease of use. The VS-1.2D DEWALT FLEXVOLT battery-driven blower features a taller fold down handle to make deployment and storage easier. It delivers a level of utility and performance found with no other battery-driven blower.

TEMPEST EBS-16

SKU # EBS-16

The Tempest EBS-16, or Box Fan, is popular for all forms of confined space ventilation. It's light and small enough to ventilate tight areas but still built to Tempest's standard of long lasting durability and reliability. Plug it in and suck the smoke/fumes/particulates out from almost any location.

VENTMASTER® 572HD

SKU # 572HD

Our 572-HD fire rescue chainsaw delivers the absolute best in cutting performance, built specifically for the fire service. Using professional-level Husqvarna® powerheads and Tempest exclusive after-market parts, no other saw compares.

VENTMASTER® K1 PACE

SKU # K1-PACE

VentMaster® Fire rescue saws deliver the absolute best in cutting performance, built specifically for the fire service. This high power battery cutter has the power and performance you expect from equivalent gas-powered cutters. Ergonomic and user-friendly with low vibrations, optimally balanced machine and zero direct emissions. Powered by Husqvarna PACE battery system with high power and fast charging for impressive productivity and a well-suited match with our specially designed battery blade range for maximized cutting depth and optimized performance.

VENTMASTER® 375K

SKU # 375K

VentMaster® Fire Rescue Cutoff Saws provide a number of features you'll only find with Tempest including a patented depth gauge and stabilizing roller assembly. Built on professional grade Husqvarna® power heads, these saws deliver only the best in cutting performance.

VENTMASTER® 3120K

SKU # 3120K

This 119cc saw is one of the most powerful handheld power cutters in the market. The 3120K has a rugged and powerful engine that can handle deep cutting applications with blade diameters up to 16".

HUSQVARNA® 540I XP

SKU # 5401XP

The Husqvarna® 540i XP from Tempest is a powerful, Quick-Deployment battery chainsaw with the equivalent power of a 40cc gas-powered saw. Designed for pros that need a lightweight, high-performance rear-handle chainsaw. It is ideal for mid-size tasks where you need a smooth and efficient cut.

HUSQVARNA® K535I

SKU # K535I

Put a superior next-generation Quick-Deployment battery product to the test on your commercial crew. Husqvarna's® K535i battery power cutter delivers professional performance. The excellent power-to-weight ratio makes the product a versatile addition for lighter landscaping or hardscaping jobs. Boasting high power and low noise, the K535i has comfortable handles and perfect balance. The K535i is adaptable for wet or dry cutting. Compatible with Husqvarna BLi200/ BLi300 batteries.

Milwaukee® M18 FUEL™ 18 Volt
2400 rpm Cordless Impact Wrench

SKU # 2855P-20

The MILWAUKEE® M18 FUEL™ 1/2" Compact Impact Wrench w/ Pin Detent is the most compact in its class, delivering more power, the most access in tight spaces at only 4.9" in length, and maximum workspace visibility. This cordless impact wrench features a POWERSTATE™ Brushless motor that generates up to 250 ft-lbs of fastening and nut-busting torque, providing the power required for installation and removal, even in confined spaces.

Milwaukee® M18™ 18 Volt 1800
rpm Cordless Drill Driver

SKU # 2606-20

The most compact drill driver in its class is more powerful than the competition. Built with a Milwaukee® 4-pole frameless motor, the M18™ compact 1/2 in. drill driver delivers 500 in-lbs of torque and up to 1,800 RPM. At only 7-1/4 in. length, this drill driver allows you access to the tightest work spaces. An all-metal gear case and 1/2 in. metal chuck provide maximum durability, even on the most challenging work sites.

Milwaukee® M18 FUEL™ 18 Volt
3600 rpm Cordless Impact Driver

SKU # 375K

The M18™ FUEL™ 1/4 in. Impact driver with ONE-KEY™ is the fastest, most compact, and most powerful tool in its class. The POWERSTATE™ brushless motor produces up to 2,000 in-lbs of torque, delivering up to 30% faster driving speed, increasing productivity for the most demanding fasteners on the job.

DEWALT® 20V MAX 20 Volt 2800
rpm Cordless Impact Wrench

SKU # DCF890B

The DCF890 3/8" Impact Wrench is compact and lightweight allowing the tool to be utilized in tight areas while the 3 LED lights provide visibility in low lit areas. Plus, it has a brushless motor for increase power, runtime and durability.

DEWALT® 20V MAX 20 Volt 450 -
1500 rpm Cordless Cordless Drill

SKU # DCD771C2

The DCD771C2 20V MAX* Lithium Ion Compact Drill/Driver Kit is lightweight and compact for working in tight spaces for long periods of time. High speed transmission delivers 2 Speed variations allowing users to choose the level of performance needed for various applications.

DEWALT® 20V MAX 20 Volt 2800
rpm Cordless Impact Driver

SKU # DC825B

The DCF885B 20V MAX* Lithium Ion 1/4 in. Impact Driver is compact and lightweight for fitting in tight spaces and increasing productivity. Three LEDs make it ideal for working in the dark. Belt hook allows user to be mobile.

Stryker Wildland Fire Shirt

SKU # FC106

The Stryker is the perfect lightweight wildland fire shirt for battling wildfires. 5.8oz Tecasafe Plus material wicks sweat away from your body and dries quickly. YKK Nomex front 1/4 zip allows for breathability and easy on/off capabilities. A chest pocket gives you a handy place to store fireline notepads and a mic-clip strap provides easy access to your mic. Top-button neck closure along with Mil-Spec Velcro wrist straps allow you to batten down the hatches when needed.

BetaX Wildland Fire Shirt

SKU # FC105

Xvent is king in the BetaX Wildland Fire Shirt. Airflow vents in each bicep area of the arms and two lower chest region vents allow for maximum torso airflow. Torso airflow helps to cool the core, keeping you more alert and focused. Made mostly of 5.8oz Tecasafe Plus (Lightweight and Breathable) with 7 oz Tecasafe Plus in the areas you want extra toughness. Top button neck closure along with Mil-Spec Velcro wrist straps allow you to batten down the hatches when needed. 3/4 YKK Nomex front zip allows for breathability and easy on/off capabilities. Two slanted bicep pockets with segmented Velcro keeps contents secure while allowing easy access even with gloves.

Vector Wildland Fire Shirt

SKU # FC103

An exceptional fire shirt designed for wildland firefighters. Its unique combination of comfort, fire resistance, and convenience sets this Coaxsher shirt apart as a top choice among professionals in the field. The Vector Wildland Fire Shirt is specifically engineered to prioritize comfort during long shifts. Made with lightweight and breathable materials, this fire-resistant shirt allows for unrestricted movement and optimal airflow to keep firefighters cool and comfortable in intense fire conditions. The Vector Wildland Fire Shirt comes with Tecasafe® Plus 5.8 oz material providing a lighter and cooler feel, similar to the old-gold wildland fire shirts. Excellent moisture management along with unmatched fit and workmanship.

Ethos Wildland Fire Pant

SKU # FC206

The Ethos wildland fire pant is extremely comfortable and breathable with added durability in the areas that are prone for blowout. Constructed out of Tecasafe Plus 7oz and reinforced with Nomex 6oz in the rear, knee, and instep areas gives you the ultimate pants to keep you protected and comfortable on the fireline. Xvent technology and Tecasafe Plus material keeps you cool and comfortable while the Nomex material protects and provides excellent durability.

CX Wildland Vent Pant, Tecasafe

SKU # FC204

The CX Wildland Vent Pant design with 7 oz Tecasafe Plus material provides the perfect balance between protection and comfort. Each feature in these wildland fire pants was specifically designed to battle against heat, sweat, and discomfort. Our Xvent system (YKK® Nomex® zippered leg vents) allows airflow to battle against internal heat buildup.

Vector Wildland Fire Pant

SKU # FC203

Day or night – the Vector Wildland Fire Pant craves the fire line. Tecasafe® Plus 7oz material provides excellent comfort, protection, and breathability. Materials and design provide great moisture management keeping you cool and comfortable. Designed for lighter duty work loads and hand crafted for excellent fit and maneuverability. Seamless underside keeps chafing on the sidelines. Back, front, and cargo pockets provide more than enough areas to stash your personal goods.

FS-1 Ranger Wildland Fire Pack

SKU # FS101

Coaxsher is proud to offer this FS-1 Ranger Wildland Fire Pack for all your firefighter gear and accessories. Constructed from high-quality, flame-resistant materials, the FS-1 Ranger Pack offers superior protection and peace of mind. This fire pack features a spacious main compartment with specialized pockets and webbing, allowing firefighters to efficiently carry their essential fire gear and tools. This fire pack also includes a water bladder sleeve, ensuring firefighters stay hydrated during long operations.

FS-1 Spotter Wildland Fire Pack

SKU # FS102

Coaxsher is proud to offer this FS-1 Spotter Wildland Fire Pack for all your firefighter gear and accessories. This wildland fire pack offers a range of features that make it a top choice for those working in demanding fire conditions. The FS-1 Spotter Pack is built with comfort and functionality in mind. This fire pack features adjustable shoulder and waist straps to ensure a secure and comfortable fit. The reinforced stitching and heavy-duty zippers enhance the pack's durability, making it capable of withstanding the toughest fire fighting situations.

Operator Wildland Fire Pack

SKU # FS104

Rebuilt from customer feedback, the newly updated Operator wildland fire pack is mission ready. Easy water bottle access, updated pockets and connection points, updated reinforcement points, along with new torso fit patterns for maximum comfort. Internal aluminum stay structure and high-quality materials provide a stout and sturdy foundation. Shoulder straps adjust both vertically and tilt for optimal custom torso fit. Closed cell foam structuring throughout with an ergonomic PALS hip-belt finishes off the pack framework. Water/fuel bottle side pockets with internal fusee loops and webbing sheath for files. Side pockets cinch and compress to keep items stored safely.

FS-1 Mojave Wildland Fire Pack

SKU # FS103

The FS-1 Mojave pack offers ample storage space with multiple compartments and pockets, providing quick and easy access to necessary firefighting gear. This fire pack has a dedicated hydration bladder sleeve for firefighters to stay hydrated during long operations. Made from flame-resistant materials, the pack ensures optimal protection and durability.

Wildland Hose Pack

SKU # OS700

Built tough with simplicity and function in mind, a no gimmick wildland hose pack that will get the job done! Large open lid for quick dump of contents, or for deploying on the go with your departments chosen style of hose lays. 1000D Cordura, box stitching, reinforced in all high-stress areas. Carry alone or over fireline pack with extra length shoulder strap adjustment. This pack will comfortably hold 200ft of 1 1/2", and 100ft of 1" with a Forestry Nozzle and Gated Wye. Can easily hold 400ft of rolled hose.

SR-1 Endeavor Search and Rescue Pack

SKU # SR101

Like our fire gear, the SR-1 Endeavor is a modular pack with multiple set-up options so you decide how to configure it and which modules and tools to carry. The main pack offers 1,900 cubic inches of space and weighs less than 2 pounds, while the light duty pack has 400 cubic inches and weighs 7oz. With removable modules like the 400 cubic inch medical kit case and the water reservoir case with dual hose ports (CamelBak® water bladder sold separately), you can tailor this versatile search and rescue pack to meet your specific needs for each mission. New features include: Additional inside mesh storage pockets, and more webbing daisy chain connection points.

PULASKI AXE

SKU # FHU-PAXE

A combination axe and grub hole ideal for chopping, digging fire lines in hard and soft soils. Ground and tempered cutting edges. Axe head attached to our fiberglass handle which dramatically outlasts wood in firefighting applications by resisting breakage, heat, moisture, and cleaning materials.

SHO-HOE TOOL

SKU # FHU-SHT

The SHO-HOE represents a unique feature in Wildland Firefighting by incorporating several tools into one. It's a SHOVEL, It's a HOE, It's a GRUB AXE, It's a BRUSH HOOK, It's a WEED AXE, It's a DITCH HOOK, It's a TRENCHING TOOL. Made with a pointed Steel Shovel Head, two sides of the blade are separated for chopping or penetrating. The handle is made of fiberglass with a non-slip Celtex grip. The heavy threaded twistlock allows the tool to be used as a straight shovel or lock at a right angle and use as a hoe.

SHOVEL SQUARE

SKU # SHV-F-55

Super light and super strong square shovel. 27 or 55 inches in length with rammed fiberglass handle and 14 gauge steel shovel head. Welded seams for added strength - a first by a shovel manufacturer!

RANGER DOUBLE DELUXE

SKU # FHU-RANGERDD

"Thick Walled" polyethylene plastic tank is thicker and uniform - will take rough handling and harsh environments. "Non-slosh" rounded design keeps the unit comfortable, balanced, and steady. The full padded pillow comforts that impinging feel of other tanks. The unit is completely corrosion resistant - will not rust like galvanized steel models and is less expensive than stainless steel tanks. Adjustable padded shoulder straps are rugged, yet fit comfortably and distribute the weight evenly down your back. Tank holds 5-gallons.

THE FIRE TUFF

SKU # FHU-FIRETUFF

This 455 Rancher is made to tackle any chain saw operation. Exceptional forestry application. New X-TORQ engine provides high torque over a very wide RPM range. Low exhaust emission levels, in accordance with EPA #2. Durable and robust saw body, cast three piece crank shaft and reinforced crancase. Ergonomically improved handles reduce fatigue. Air injection makes the saw run stronger and longer. Smart-Start and purge pump provides easy starting. This saw is made for multiple rough ON and OFF operations. Weighs a perfect 12 lbs. of weight distribution.

M-CLOUD TOOL

SKU # FHU-M-CLOUD

Complete with fiberglass handle and heavy duty hoe blade to withstand the rigors of wildland firefighting. Can be used for trenching, grubbing or slashing brush. Also useful in cutting through deep duff, underbrush, and similar fuels.

HUSKY HELICOPTER WATER TANK

SKU # HHP-HWT

Husky® Helicopter Tanks are water shuttle tanks designed to be transported by helicopter and set down into forestry areas for a water supply for the firefighters whether in remote areas or not.

HUSKY FLOATING STRAINER

SKU # HHP-HFL

Husky® Floating Strainers are built with durability, strength and lightweight in mind. They can be used in lakes, streams, swimming pools, portable tanks and many other sources of water. Husky® Floating Strainers are designed for maximum flow and will draft in shallow water down to 5" deep. The removable barrel can also be used as a strainer.

KEY HOSE TYPE II FORESTRY HOSE

SKU # 5100-187

A heat resistant ring spun outer jacket prevents damage from sparks and radiant heat. The outer jacket is finished with our iconic "Key-Lok" polyurethane based polymer impregnation so hose will remain mildew resistant and require no drying.

Sizes

- 1"
- 1 1/2"

KEY HOSE PENCIL LINE

SKU # FF058-300

Lightweight, circular woven fire hose technology incorporating high tensile, all polyester woven jacket, lined with high tensile NSF polyurethane. This workhorse hose packs tight and features brass GHT threaded couplings with strain reliefs.

Sizes

- 5/8"
- 3/4"

KEY HOSE REEL LITE

SKU # RB10-800

The industry's most durable and lightweight, high pressure booster hose featuring a highly abrasion and heat resistant single jacket polyester cover. Uniquely constructed using an interior helical reinforcement offering unmatched kink resistance that maintains hose shape and performance.

NAR BLEEDING CONTROL SKILLS TRAINING KIT

SKU # 80-0880

The Bleeding Control Skills Training Kits from North American Rescue® provide the appropriate equipment needed to teach up to 20 students the necessary life-saving skills of bleeding control. The equipment is packaged in a self-contained, wheeled rigid case with internal dividers to keep the equipment organized and easy to inventory. The instructor kit is available with or without a wound management simulator model. The contents of this advanced training kit include all the necessary equipment to address extremity bleeding, wound packing, pressure bandages, as well as litters to carry injured victims, corresponding to the equipment in NAR's Basic / Advanced / Advanced BCD / Advanced Celox™ Public Access Bleeding Control Kits.

NAR TRUECLOT HEMORRHAGE TRAINING KIT

SKU # 93-0020

The TrueClot® Hemorrhage Training Kit™ by Luna is designed with everything you need to demonstrate and train on advanced wound packing techniques with the use of advanced hemostatic gauzes. This highly realistic Wound Packing Trainer features a large caliber gunshot wound with hidden bleed points and a simulated fracture/defect hard plastic bone insert to aid in teaching deep packing techniques necessary for larger wounds, ie. "pack to the bone." As Luna's proprietary TrueClot® Clotting Blood Simulant is pumped into the wound track using the attached 1 liter squeeze bottle and makes contact with the Simulated Hemostatic Gauze, realistic simulated blood clots form on the gauze at the point of bleeding to demonstrate the reaction of Hemostatic Gauze in a wound. Mimicing the mechanics of actual wound packing, the trainer can be fully packed with 12 ft of gauze and have external pressure applied to help slow blood flow.

NAR PUBLIC ACCESS INDIVIDUAL BLEEDING CONTROL TRAINER KIT

SKU # 80-0901

Public Access Individual Bleeding Control Trainer Kits by North American Rescue® provide the appropriate equipment needed to teach individuals the necessary life-saving skills of bleeding control. Designed to correspond with the equipment found in our core Advanced Public Access Bleeding Control Kits, these individual trainers come fully packed in a distinctive blue nylon bag and contain trainers of intuitive, easy-to-use tools proven to help to save lives such as the C-A-T® tourniquet, gauze, pressure dressings, hemostatic, and chest seal. Also included are step-by-step illustrated "just in time" pictorial instructions. These trainers are available Basic, Intermediate, Advanced, and Advanced Celox™ configurations.

NAR SAM IO TRAINING KIT

SKU # 30-0256

The SAM IO Training kit provides all of the equipment needed to familiarize trainees with the SAM IO hardware and usage. The nylon carrying case includes elastic loops for storing needles, along with attachment points for the driver once you've removed these items from their original packaging. The main compartment has a divider that includes a mesh pouch on the under side for storing additional loose pieces such as the needle adaptor. The included equipment is for training use only.

NAR TCCC/ TECC TRAINING MODULE SKILLS/IFAK COMBO

SKU # 85-0740

The TCCC/TECC Modular Training System from North American Rescue provides all the necessary tactical medical and casualty extraction/evacuation equipment needed when teaching the PHTLS TCCC Certification required tasks for completing the Tactical Combat Casualty Care (TCCC) course. This system is available as a turnkey solution for training centers and educational institutions.

Simulaids Rescue Randy

SKU # 1480

Large Body Rescue Randy 185lbs These larger body Rescue Randy manikins come in eight different weights to meet your rescue training needs. Turnout gear not included. Size: 55" x 27" x 13". Ship weight 205 lbs.

ELKHART Chief XD

SKU # ELK-CHIEF

The choice for fixed flow fog nozzles, the Chief XD® is an absolute workhorse designed for a lifetime of service. Available in a variety of flow rates and pressures down to 50 psi (3.5 BAR).

Sizes (Inlet-Waterway)

- 1' - 1'
- 1.5' - 1'
- 1.5' - 1 3/8"
- 2.5' - 1 3/8"

ELKHART Select-O-Matic XD

SKU # ELK-SOMXD

The Select-O-Matic® XD™ automatic handline nozzle adjusts to fluctuating water supply conditions to maintain effective pressure and a consistent fire stream in all flow ranges.

Sizes (Inlet-Waterway)

- 1' - 1'
- 1.5' - 1'
- 1.5' - 1 3/8"
- 2.5' - 1 3/8"

ELKHART Phantom XD

SKU # ELK-PHANTOMXD

The Phantom® XD™ selectable flow nozzle series has your target flow covered! With different pressure and flow ranges available, there is one to meet your need. Built with positive interlocking, robust tactile selection grips, selecting the desired flow rate won't be a problem even in the harshest conditions. If selectable flow is your choice, then choose the Phantom XD

Sizes (Inlet-Waterway)

- 1' - 1'
- 1.5' - 1'
- 1.5' - 1 3/8"
- 2.5' - 1 3/8"

TEMPEST FLOWMATIC REGULAR ALUMINUM

SKU # TEMP-TFRA

Designed to be extremely effective, the FLOWMATIC Regular nozzle has a pressure regulation system that optimizes its range of action even in case of pressure drop and allows the user to perform pulsing, starting at 75 psi. It can also offer a double jet for an attack to make it even easier.

TEMPEST MULTIFLOW REGULAR ALUMINIUM

SKU # TEMP-TMRA

The MULTIFLOW Regular nozzle with multiple flow rates was designed to better manage the water resources. Thus, with a sliding ring equipped with tactile markers, the MULTIFLOW nozzle allows the user to select the desired flow rate. Designed in hard-anodized aluminum, the MULTIFLOW Regular nozzle was tested in accordance with the salt spray test.

TEMPEST MULTIFLOW REGULAR FIBERTECH

SKU # TEMPEST TMRF

MULTIFLOW Regular selectable flow nozzle was designed to optimize the management of water resources. Equipped with sliding ring and tactile marker, the MULTIFLOW nozzle allows the selection of the desired flow rate. Made of FiberTech composite material, the MULTIFLOW Regular FiberTech nozzle is lighter and more resistant to corrosion than aluminum models. It is available in 105 or 132 gpm

HARRINGTON Female Swivel RL x Female Rigid Threaded Adapters

SKU # H53

Threaded adapters available from 1.5" to 12". All adapters provide the necessary safety features for municipal fire fighting. Storz adapters 4" and larger feature a locking mechanism. British instantaneous adapters, NST adapters and other European adapters are available upon request. All threaded adapters are hard coated to military spec. Type 3 and made from aircraft #6061-T light weight aluminum. All female swivels utilize stainless steel ball bearing or aluminum roller bearings, no plastic.

HARRINGTON Male x Female Swivel Rocker Lug Threaded

SKU # H54

Threaded adapters available from 1.5" to 12". All adapters provide the necessary safety features for municipal fire fighting. Storz adapters 4" and larger feature a locking mechanism. British instantaneous adapters, NST adapters and other European adapters are available upon request. All threaded adapters are hard coated to military spec. Type 3 and made from aircraft #6061-T light weight aluminum. All female swivels utilize stainless steel ball bearing or aluminum roller bearings, no plastic.

HARRINGTON Female Swivel RL x Female Swivel RL Threaded

SKU # H-55

Threaded adapters available from 1.5" to 12". All adapters provide the necessary safety features for municipal fire fighting. Storz adapters 4" and larger feature a Storz-Lok locking mechanism. British instantaneous adapters, NST adapters and other European adapters are available upon request. All threaded adapters are hard coated to military spec. Type 3 and made from aircraft #6061-T light weight aluminum. All female swivels utilize stainless steel ball bearing or aluminum roller bearings, no plastic.

HARRINGTON Male x Female Rigid Rocker Lug Threaded

SKU # H37

Threaded adapters available from 1.5" to 12". All adapters provide the necessary safety features for municipal fire fighting. Storz adapters 4" and larger feature a locking mechanism. British instantaneous adapters, NST adapters and other European adapters are available upon request. All threaded adapters are hard coated to military spec. Type 3 and made from aircraft #6061-T light weight aluminum. All female swivels utilize stainless steel ball bearing or aluminum roller bearings, no plastic.

HARRINGTON 30° Elbow Adapters- NH Male x NH Female Swivel

SKU # H30E

Harrington Storz elbow adapters are rated for a working pressure of 250 PSI. Elbows are hard coat aluminum anodized to Military Specification, Type 3 then powder coated for a nice smooth finish. "Forged" Storz heads provide maximum strength. No hidden imperfections like those found in cast Storz heads. All female swivels utilize stainless steel ball bearing or aluminum roller bearings, no plastic. Available 2.5" to 6". All Storz heads 4" and larger include All Metal NFPA compliant Storz-Lok.

HARRINGTON Threaded Blind Caps

SKU # HTBC

Threaded adapters available from 1.5" to 12". All adapters provide the necessary safety features for municipal fire fighting. Storz adapters 4" and larger feature a locking mechanism. British instantaneous adapters, NST adapters and other European adapters are available upon request. All threaded adapters are hard coated to military spec. Type 3 and made from aircraft #6061-T light weight aluminum. All female swivels utilize stainless steel ball bearing or aluminum roller bearings, no plastic.

HARRINGTON Hydrant Gate Valves

SKU # HHGV

Gate valve, 2.5" NH female swivel x 2.5" NH male gate valve with a non-rising stem is excellent for hydrant, hose, high rise standpipe, and other water control applications. There is a spinning knob on hand wheel for easy open/close, with a built in slow close safety operation. Lightweight, corrosion resistance, anodized aluminum construction with an anodized aluminum spindle. Also available with special threads. This product features a high 250 PSI pressure rating.

HARRINGTON Storz Adapters- x Female Rigid Adapter

SKU # HSFR

These Storz adapters are tested to a rated pressure of 250 PSI for all fire hydrant connections. No hidden imperfections like those found in cast couplings. "Forged" Storz heads provide maximum strength. Low profile is available on certain models. Excellent adapters for FDC connections for buildings.

HARRINGTON Storz Adapters - x Male Rigid Adapter

SKU # HSMR

These Storz adapters are tested to a rated pressure of 250 PSI for all fire department connections. No hidden imperfections like those found in cast couplings. "Forged" Storz heads provide maximum strength. Excellent adapters for FDC connections for buildings.

ELKHART Adjustable Hydrant Wrench

SKU # S-454-S

Adjustable to fit up to a 1.75" pentagon nut or 1.5" square nut on fire hydrants. Can be used as a spanner wrench on 4.0" or 5.0" Storz couplings or on rocker lug couplings from 2.5" up to 5.0". Wrench head is made of rugged, cast manganese bronze, with a knurled chrome-plated steel handle

R&B HYDRANT BAG

SKU # 442RD

A large 22 oz. vinyl bag designed to hold all of the equipment you need for a hydrant operation. The VELCRO® closure on top allows for quick access with your gloves on. The molded TUFF Bottom provides an almost indestructible base. This bag will hold large gated valves, wyes, wrenches, reducers, etc. A high density padded bottom helps to protect equipment. Heavy duty D rings are for an optional shoulder strap. This is available in red and weighs 6 oz. The overall dimensions are 24"L x 12"W x 9"H.

HARRINGTON Harrington ALL In One Spanner Wrench Set

SKU # HSSW-501-HSW

Harrington all in one spanner wrench set, includes 1 each # HSSW-100 hydrant/Storz wrench along with 4 each # HSSW-41-61 Storz multi size single end wrenches and truck mounting bracket. The HSSW-100 hydrant wrench accommodates 4" and 5" Storz connectors. The HSSW-41-61 wrenches accommodate 4" & 5" Storz and 2.5" - 3" rocker lugs. Truck mounting bracket is anodized aluminum for durability and corrosion resistance for years of no rust service. Heavy duty springs secure wrenches along with quick access to all wrenches even with gloved hand.

Dublin IQ SET

SKU # VIKING-DIQ

Viking IQ, Double face fabric construction for high thermal protection. Long service life with high abrasion resistance. Maintains color and shape after washing. Maximum comfort during extended wear. Öko-Tex Standard 100, product class 2 n DIN EN 469, DIN EN 1149 and NFPA approved.

Bundle and Save!

Our Dublin Bunker Gear set comes with 1x TC-1 Phenix, 1x Hexarmor 8180, 1x HAIX Fire Eagle Air, 1x Viking IQ Coat & Pant, 1x Viking Hood

Ulster PBI SET

SKU # VIKING-UPBI

PBI, our heavy duty set, PBI Max is the strongest outer shell in the industry. Its patented design offers the ultimate combination of high break-open and thermal protection, strength, comfort, and flexibility.

Bundle and Save!

Our Ulster Set comes with 1x TC-1 Phenix, 1x Hexarmor 8180, 1x HAIX Fire Eagle Air, 1x PBI Coat & Pant, 1x Viking Hood,

FHU FORCIBLE ENTRY FLAT HEAD AXE

SKU # LS-8

The Lock-Slot 8 Forcible Entry Axe is a perfectly balanced Force Axe in the hands of a firefighter for striking the MAXIMUS Forcible Entry Halligan Bar. The Lock-Slot 8 features a drop forged head of high carbon steel, rockwell heat-treated and coated with anti-rust zinc plate

FHU PRO-BAR HALLIGAN

SKU # FHU-PR30

THE 30" PRO-BAR IS THE ONLY HALLIGAN TYPE TOOL USED BY THE NEW YORK CITY FIRE AND POLICE DEPARTMENTS FOR THE LAST 30 YEARS. IT IS CARRIED BY EVERY ENGINE, TRUCK AND RESCUE IN THE F.D.N.Y. IT IS ALSO CARRIED BY EVERY UNIT IN EMERGENCY SERVICES AND THE HIGHWAY PATROL.

FHU MAXX-AXE

SKU # FHU-MAXXA

A 7 lb head on your choice of a black or yellow handle (available in 32" and 36" length). You can carry a Maxximus bar or Pro Bar to the roof with one hand. The lock slot feature marries both tools together. It leaves one hand free for ladder ascent or holding a flashlight or roof hook.

Firehooks Unlimited GEORGIA HOOK

SKU # FHU-GH

The Georgia Hook features an Drywall head at one end and a NY Roof Hook at the other constructed on our versatile steel shaft. This unique configuration offers various options on the fireground.

Firehooks Unlimited COLORADO HOOK

SKU # FHU-CH

The Colorado Hook features an Arson-Trash Hook at one end and a NY Roof Hook at the other constructed on our versatile steel shaft. This unique configuration offers various options on the fireground.

Firehooks Unlimited DENVER HOOK

SKU # FHU-DH

The Denver Hook features an Gator Back Head at one end and a NY Roof Hook at the other constructed on our versatile steel shaft. This unique configuration offers various options on the fireground.

FHU BOLT CUTTERS

SKU # BC-SIZE

Heavy duty contractor quality bolt cutters for a variety of cutting tasks including locks, chain links, reinforcing rods, bolts, rivets. Sizes are 18", 24" and 36"

This tool features honed 2 angled penetrating points, 10 two sided cross-cutting teeth to cut on both pull and push strokes. Comes with protective plastic point cover.

FHU WINDOW PUNCH

SKU # SP-1

Brass window punch with ring... Simple, fast and safe. Press point in corner of window until spring releases. Point will break glass and you can quickly gain access into the vehicle. Adjustable spring force for light or heavy loading. Double spring loaded barrel harden tip.

FireForce Station Wear Shirt

SKU # FC115

The FireForce Station Wear Shirt is designed with firefighter-specific needs in mind. This Coaxsher shirt features a professional appearance with a button-front closure and epaulets, allowing for easy customization with department patches or identification. The fire-resistant shirt also has two large front pockets with hidden pen cavities, providing convenient storage for essential items.

5.11 COMPANY LONG SLEEVE SHIRT

SKU #720LSS

Ready to answer every call through a busy shift, the Company Shirt backs you with a vital layer of safety (certified to NFPA 1975, 2019 edition) in a high-tech, low maintenance fabric. It's made with a soft, yet durable cotton twill that's wrinkle-resistant and stitched with protective Firefly™ thread. The Company Shirt also features heat-resistant melamine buttons and a modern, yet professional collar shape with collar stays. Badge tab and epaulette kit included.

5.11 A.T.A.C.® 2.0 SHIELD BOOT

SKU # 019

A renowned 5.11 Tactical boot steps up its profile with heightened performance and comfort. The A.T.A.C. 2.0 8" Shield lightens things up but remains deadly serious about delivering superior safety in the most unforgiving environments. An added 5.11 SlipStream™ waterproof / bloodborne pathogen membrane, ASTM/CSA CARBON-TAC toe, and an ASTM/CSA puncture resistant board provide critical protection. Full-length dual durometer Ortholite® footbed works to keep your feet cool, dry, and comfortable all day every day. Another addition, the Achilles heel flex zone, gives a critical part of your foot more range of motion without compromising support and stability. This boot is so tough, it can live up to the ASTM 2413-17 M I/75 C/75 EH PR standards, day in and day out. CSA Z195-09 rated for compression, cutting, abrasion, and electrical discharge protection.

FireForce Station Wear Pant

SKU # FCNV216

Starting with a True Fit responsive waistband that eliminates bunching and provides optimal comfort, and five reinforced beltloops to accommodate heavy duty belts. Inset cargo pockets that add utility but maintain a sleek profile and professional look. Articulated knees provide improved freedom of movement that has been long overdue in a work pant that needs to maintain a uniform look. Rear pockets that have the same sleek closure as the cargo pockets while providing security of contents. All stress points have bartack reinforcement. A diamond shaped crotch provides less bunching and more freedom of movement. The FireForce Station Wear Pant is a must have for any department looking to enhance the function of their standard station wear uniform while maintaining a modern professional look.

5.11 COMPANY PANT 2.0

SKU #FHU-OMBR

Under pressure, close to the heat, the Company Pant 2.0 helps you stay focused and ready. Designed with proven, station-ready features, this pant is certified to NFPA 1975 (2019 edition). It's constructed with a TOUGH COTTON™ finished twill and stitched with heat-resistant Firefly™ thread from top to bottom. Last but not least, the self-adjusting waistband with gripper tape helps keep your shirt tucked in, even if everything else around you is coming unhinged. Imported.

5.11 SOCK & AWE THIN RED LINE

SKU # 999

Tactical support where you need it most, but think about it least, this sock could save your day. Your feet will thank you. Air Vented, cushioned toe and heel, 69% polyester / 31% elastane toe and heel, 69% polyester / 31% elastane

THANK YOU!

THANK YOU TO OUR CURRENT AND FUTURE CUSTOMERS WHO TRUST US WITH PROVIDING THE BEST EQUIPMENT ON THE MARKET!
